

# V-FIT™ Full-Body Harness

## Superior Comfort

1 Using a patent-pending RaceFLEX™ connection with an integrated D-Ring, webbing is routed across the chest for a secure and comfortable fit, eliminating the need for bulky chest strap or cumbersome buckles.

2 Shoulder padding responds to your movement to conform to your body, eliminating pressure points and chafing. Shoulder padding is breathable and can be removed for cleaning, extending the life of the harness.

3 Patented leg strap design keeps leg straps in place as webbing lays horizontally across the thighs, creating a more natural fit.

## Flexibility

4 The RaceFLEX Buckle creates an athletic cut contouring the harness to the body and improving upper torso movement on the job.

## Adjustability

5 Pull-down adjustment allows you to quickly and easily get the right fit that lasts throughout the work day.

6 Dedicated attachment point for Personal Fall Limiter allows for quick and easy attachment and keeps your back D-ring free for other use.

## Ease of Use

7 New Hex style stitch patterns make finding broken threads easy when inspecting the harness.

## Coated Webbing

8 NanoSphere webbing coating uses nanotechnology to repel dirt, grease, moisture and water.

WE KNOW WHAT'S AT STAKE.

## V-FIT Harness Adjustable Waist Pad

The V-FIT Harness' adjustable waist pad allows you to position the waist pad specifically for you and your work day. With its patent pending design. The V-FIT waist pad can be adjusted higher on your torso for lumbar support or lower for work positioning applications. Designed around pressure points and by choosing breathable materials, the V-FIT waist pad delivers ultimate on-the-job comfort.

Waist Pad frontside with Quick Conned Buckle
