

V-FLEX™ Full-Body Harness

Superior Comfort

1 Using a patent-pending RaceFLEX connection, webbing is routed across the chest for a secure and comfortable fit—eliminating the need for bulky chest straps or cumbersome buckles.

2 Reduce fatigue and heat stress with a breathable, contoured pad material that conforms to the shape of your shoulders for increased comfort.

3 Patented leg strap design keeps leg straps in place as webbing lays horizontally across the thighs, creating a more natural fit.

Increased Mobility

4 Using an exclusive racing style design, webbing contours to the torso, reducing the need for adjustments throughout the day and allowing for better mobility on the job.

5 Featuring a patent-pending hip connection, the harness “flexes” with the worker, reducing fatigue throughout the day.

Style

6 Inspired from athletic wear design, the V-FLEX not only feels great, it looks good too.

7 Unique identifiable stitch pattern, along with fewer stitch points, saves time during pre-use inspection process.

WE KNOW WHAT'S AT STAKE.
