**Note: Flame resistant (FR)** liner is made of special fibers that allow it to self-extinguish when exposed to flame or thermal ignition. Flame resistance cannot be removed by washing. Unlike many other winter liners in the market, ALL layers of fabric in V-Gard Supreme Liner are flame-resistant, affording FR protection throughout the life of the product.<sup>2</sup> For this reason, only V-Gard Supreme Liner offers resistance to arc exposure.

<sup>1</sup>Warming packets available at most sporting goods retailers; not sold with liners.

<sup>2</sup>Garment care instructions must be followed.

Note: This Bulletin contains only a general description of the products shown. While uses and performance capabilities are described, under no circumstances shall the products be used by untrained or unqualified individuals and not until the product instructions including any warnings or cautions provided have been thoroughly read and understood. Only they contain the complete and detailed information concerning proper use and care of these products.
