Harness Sizing Chart

MSA has been in the business of safety at height since 1930. Today it is at the forefront of innovation in fall protection products.

MSA is proud of its Fall Protection range and with the new 'WORKMAN' range of harnesses, lanyards, tripods and personal fall limiters we can assist you with all of your fall arrest needs.

As part of a global business, MSA Australia has access to a complete range of product from facilities in Mexico, China, Europe and the U.K.

This access enables MSA Australia to carry stocks of the complete MSA fall protection product range.

We stock a full range of self retracting lanyards, harnesses, confined space entry, rescue products, horizontal and vertical lifeline systems.

Harnesses

WORKMAN® International Harnesses

Premier Full Body Harness

Qwik-Fit Leg Strap Connectors

Bayonet Leg Strap Connectors

Self-Contained Tag Pack & Impact Indicator

Adjustable Leg Pads

- All-purpose full body harness for a wide variety of industrial applications including Construction, Confined space, Elevated work platforms, Roofing and more.
- Constructed from lightweight UV resistant webbing.
- Fall arrest rated frontal attachment loops and rear D-ring.
- Attachment loops on shoulders for confined space entry and retrieval applications with spreader bar.
- Choice of Qwik-Fit or Bayonet leg strap connectors.
- Adjustable leg pads for ergonomic comfort.
- Newly designed, wear resistant, card package protects harness information and inspection detail.
- Unique impact indicator detects if the harness has been loaded.
- Available in Small, Medium and Large sizes.
- Certified to AS/NZ 1891.1:2007.

Shock Absorbing Lanyard Fall Distance Calculation

H = Distance between the working surface the fall arresting D-Ring (Approximately 1.5 m, add additional height for taller persons)

L = Length of the lanyard (see Lanyard Selection table)

S = Distance between the working surface and the anchorage connector

DD = Deceleration Distance (1.75 m)

HEFF = Harness elongation fall factor i.e. stretch in the harness (Approximately 0.3 m)

SF = Safety Factor (Recommendation is 1 m)

NOTE:

1. Free fall distance must not exceed 2 m
2. Never make your anchorage connection below the level of the attachment point on your harness
3. The Total Fall Distance (TFD) must exceed the clearance distance (C)

WORKMAN® FP Stryder Anchorage Connector

- Easy single hand installation.
- Low friction wear pads with Teflon allow Stryder to glide effortlessly along beam flange.
- Versatility allows for mounting overhead or at workers feet.
- Vernier adjustability for secure fit.
- Push button adjustment - no pins to be lost!
- 2 models available - standard version and XL version .
- 182kg working capacity.
- 22.2kN rated.
- Complies with AS/NZS 1891.4:2009.

PART NO:	Description
10144431	Workman FP Stryder 4"-13.5" Beam

WORKMAN® Fall Protection Kits

WORKMAN® Roof Worker's Kit

- WORKMAN® International Premier Harness (Medium).
- Kernmantle Rope c/w rope adjuster.
- Anchor Sling (1.5 m).
- Screw Gate Karabiner (x2).
- Backpack Carry Bag.

WORKMAN® Personal Fall Limiters

WORKMAN® Twin Leg PFL

PART NO:	Description
10126099	Twin Leg PFL, 21mm Snaphooks - 2.0m

WORKMAN® Twin Leg PFL

PART NO:	Description
10126098	Twin Leg PFL, 65mm Scaffold Hooks - 2.0m

- Twin Leg connection provides greater mobility and increased safety with continuous connection.
- Allows for the PFL to be fully integrated with the WORKMAN Harness range with fast and easy connection to harness rear D-Ring.
- Patent pending ARCA harness connection.
- 2.0 m lifeline length.
- Maximum arrest distance of 1.1 m – ideal for use in low clearance applications.
- Robust thermoplastic housing – tough and lightweight.
- Available with 2 x 21mm steel snaphooks or 2 x 65mm scaffold hooks.
- Certified to EN360 and complies with AS/NZS 1891.3:1997.

WORKMAN® Self Retracting Lanyards

WORKMAN® PFL

PART NO:	Description
10093348	PFL, Alloy Double Action Hook, 3.7m

PART NO:	Description
10093349	PFL, Steel Double Action Hook, 3.7m

PART NO:	Description
10099598	PFL, Steel Triple Action Karabiner, 3.7m

- Impact-resistant thermoplastic housing and alloy steel frame.
- Carbon steel locking mechanism with 1.9cm Nylon lifeline.
- Suitable for use in vertical, horizontal and incline applications.
- Maximum Working Load: 181 kg.
- Minimum Breaking Strength: 15kN.
- Maximum Arresting Distance:
 - 1.07 m – up to 140 kg & 1.37 m – from 141 kg to 181 kg.
- Certified to EN360 and complies with AS/NZS 1891.3:1997.

WORKMAN® SRL

- With lightweight design, durable thermoplastic housing and impact-absorbing bumpers, the WORKMAN SRL is not only well accepted by users, but also provides years of dependable service.
- RFID-enabled product for simplified product tracking and inspection.
- 136 kg working capacity for increased versatility.
- Integral, ergonomic carrying handle for easier transportation and installation.
- Swivel snaphook with load indicator at lifeline end greatly limits twisting of cable; also alerts users that the WORKMAN SRL has been involved in a fall.
- Available in 9.0 m and 15.0 m lengths to provide the mobility you need.
- Certified to EN360 and complies with AS/NZS 1891.3:1997.

PART NO:	Description
10120723	SRL, 9.0m SST, steel D/A Swivel Snaphook
10121777	SRL, 15.0m SST, steel D/A Swivel Snaphook

WORKMAN® Tripod

Easy to Use. Durable. Versatile.

- The Workman Tripod is very easy to use. Simple setup makes the process quick and promotes correct use.
- Ease-of-use features:
- Legs automatically lock in open position for added safety.
- Maximum height indicator provides quick and easy identification of maximum leg extension length.
- No need for separate pulley/bracket assembly, making winch or hoist attachment easier and faster.
- Accessories attach to any leg for faster setup.
- Aluminium leg and head design reduces weight, improving portability.
- Telescoping legs up to 2.44m (8 ft) high do not tangle when unit is collapsed for easier transportation and storage.
- The Tripod head features four separate attachment points

PART NO:	Description
10102002	WORKMAN® Tripod - 8ft (2.44m) working height
10105656	WORKMAN® Tripod Duffel Bag

Durable

A tripod needs to hold up well under use, and the Workman Tripod does. Built for durability, the unit features:

- Skid-resistant feet with built-in leg base support strap that improves stability and strengthens entire system.
- Cut-resistant pin retention chains that enable extended service life.
- Internal leg-locking mechanism prevents accidental disengagement during use and reduces possibility of damage to mechanism during use or while in storage.

Versatile

If ease-of-use and durability aren't enough, the Workman Tripod offers great versatility:

- Leg base support strap also serves as convenient carry strap.
- Tripod legs feature 4" incremental adjustments with easy-to-insert ball detent pins.
- Unit is backwards-compatible with Lynx® Hoist and Lynx Rescuer; no need to purchase new equipment or undergo costly upgrades.

Confined Space Equipment

WORKMAN® Winch

- Rugged, versatile and economical choice for lifting, lowering and positioning of personnel and materials within confined space applications.
- Designed for a maximum 140kg workload for personnel and 225kg for materials, the WORKMAN® Winch has a tough thermoplastic housing to ensure high performance in the harshest environments.
- Offers an integral and ergonomically carry grip with a unique, foldable crank handle for simple storage inside the included carry bag.
- Level wind mechanism for a tangle-free cable drum.
- Built in shock absorber and double braking system.
- Patent-pending bracket design allows for easy, rapid assembly.
- Compatible with WORKMAN Tripod & MSA Davit Arm.
- RFID-enabled product for simplified product tracking and inspection.
- Certified to EN1496 Class B.

PART NO:	Description
10147296	WORKMAN® Winch, Stainless Steel Cable 20m (65ft), EN
10154688	WORKMAN® Winch Stainless Steel Cable 30M (98ft), EN

Note: Separate Pulley (506222) and Karabiner (765807) are required for use with Tripod.

Lynx™ Rescuer & Dynevac II

- Self Retracting Lanyard with emergency retrieval capabilities.
- User is able to reset device from retrieval mode to fall arrest mode.
- Dynevac II utilises a safety pin feature for field re-set from inertia reel to recovery and back to inertia reel.
- Lynx Rescuer utilises a lock feature with key which allows more control over who can reset the unit back to fall arrest mode.
- Provides fall arrest and emergency lifting and lowering for confined space entry.

PART NO:	Description
10011744	Lynx Rescuer, 16m travel, stainless steel cable
10011745	Lynx Rescuer - 30m travel, stainless steel cable
10007782	Dynevac II, 16m stainless steel cable
10007783	Dynevac II, 30m stainless steel cable

Note: Separate Mounting Bracket (506232 - 16m; 506216 32m), Pulley (506222) and Karabiner (765807) are required for use with Tripod

Rescue Safe Rope Rescue Retrieval System

- For raising and lowering people in rescue and industrial work access and is ideal for confined space applications.
- Overspeed locking brake.
- Hand ascender for aiding the operation and fail safe brake.
- Anchor strap and karabiners (2).
- 3:1 or 4:1 mechanical advantage.

PART NO:	Description
229090-45.0	3:1 Ratio - 45m (Max. Trav - 15m)
