

# Workman® Cable Personal Fall Limiter (PFL)

## Features & Benefits

<i>Feature</i>	<i>Benefit</i>
<b>Durable, engineered thermoplastic housing</b>	Lighter weight
<b>Line length is 7' to 12'</b>	User gets the exact length needed for the specific application.
<b>400-pound working capacity</b>	No need to custom-order a product for a worker exceeding 310 pounds.
<b>Does not require annual factory recertification</b>	Reduces the cost of ownership and eliminates downtime.
<b>Integral load indicator</b>	Alerts the user that the unit has been involved in a fall and that the PFL must be removed from service.
<b>Recessed label pack with durable cover</b>	All labels are located in the same area to make it easier to find important user information. The durable cover protects the label pack from environmental damage, increasing product life.
<b>Assemble-to-Order process</b>	Allows you to order exactly the options you want, and only the options you want.
<b>PFL Connector options</b>	Unit can be used in a wide variety of applications. Users can choose the type of connector they are most comfortable with, and that best suits their application.
<b>Lifeline Connector options</b>	Unit can be used in a wide variety of applications. Users can choose the type of connector they are most comfortable with, and that best suits their application.
<b>Price options</b>	PFL can be used in virtually any market.

**Note:** This bulletin contains only a general description of the products shown. While uses and performance capabilities are described, under no circumstances shall the products be used by untrained or unqualified individuals and not until the product instructions including any warnings or cautions provided have been thoroughly read and understood. Only they contain the complete and detailed information concerning proper use and care of these products.
