Jeep Wrangler JK - 4 Door	Rear	10049169

Longer slip yoke for increased travel

Allows for more extension and compression while navigating the trail.

DIRECT-FIT, BOLT-IN UPGRADE

Our one-piece flange prevents run-out, eliminates the need for an adapter, and bolts directly to your stock Jeep JK axle.

LIVE THE SPICER LIFE

**FOR THOSE
ABOUT TO
ROCK**

BUILT FOR ULTIMATE PERFORMANCE

Our SAE-4340 nickel chromoly axle shafts are engineered to exceed OE standards and meet the exacting demands of off-road.

SPICER® NICKEL CHROMOLY AXLE SHAFTS

The Metal Makes the Difference.

Hit the trail with the confidence that comes from knowing you are backed by the global leaders in driveline products. Engineered to deliver added strength and durability, these Spicer axle shafts are one more example of the innovations that we bring to performance applications. See the features and benefits of our high-performance axle shafts, including:

SAE-4340 nickel chromoly steel construction

- For ideal hardness throughout the part
 - Nickel provides additional toughness
 - Chromium ensures high-temperature strength and resistance abrasion
 - Molybdenum helps maintain a specified hardenability

Heat treatment processes

- Delivering the same surface hardness and case hardness, while achieving a higher core hardness for greater strength
- Ensuring optimal hardness inside and out

Optimized for high-performance strength and durability

- Designed to withstand off-road punishment

SPICER® PERFORMANCE ADJUSTABLE SHOCKS

Hand-Built in the USA by Walker Evans Racing

For the first time, you can get the ride that made the legend. Walker Evans Racing uses only the finest domestic alloys to hand-build these direct-fit shock absorbers. Manufactured with pride in Riverside, California, these rebuildable shocks deliver championship quality on the road and off. Trust the names that people have turned to for decades, Walker Evans Racing and Spicer. **Shocks are sold individually.**

- Braided stainless remote lines withstand abrasion and heat
- Billet aluminum remote reservoir brackets hold tight in the toughest circumstances
- Progressive application-specific valve stacks offer unparalleled ride quality and performance
- 16-position compression adjuster delivers 250% range of dampening force, easily adjusting for any street or trail conditions

WHERE THE RUBBER LEAVES THE ROAD.

SPICER® FRONT and REAR AXLE SHAFTS for the JEEP WRANGLER JK

Upgraded Dana 30™ and Dana 44™ Axle Shafts for Larger Tires.

Today's Jeep owners are customizing their vehicles with larger tires that stand up to rough terrain. They want larger universal joints and an even stronger axle shaft for their Dana 30™ and Dana 44™ axles. These upgraded front axle shafts deliver with these design improvements:

Made in USA

U-joint size increased from 1310 to 1350 series

- 25% higher yield strength
- U-joint sealing package upgraded to Spicer Life Series®

Unparalleled strength and longer life

- Fatigue life improved by 300%
- 2000% improvement in high-angle fatigue life

Upgrades made to Dana 30 and Dana 44 axles

- Designed for larger tires and off-road use

Outer stub design re-engineered for added strength

- Improved snap retention for increased shock loading
- Material added to yoke ears and removed from body to equalize deflection through yoke and reduce bearing cap spinning
- Micro-alloy improves strength of shaft
- Statistically controlled heat treatment ensures proper hardness

SPICER® BEARING KITS

Not All Bearings Are Created Equal.

Choose Spicer axle bearing kits for just the right repair. Each kit comes complete with exactly the right combination of parts you need to get your axle back in shape and on the road, including:

- Highest quality mix of bearings, cups, and cones for performance you can count on
- Premium oil seals to keep lube in and dust and road grime out
- Handy RTV compound to seal the repair

SPICER® DIFFERENTIAL CARRIER CASES

Strength and Durability Across Multiple Configurations.

For years, the Trac-Lok differential assembly has delivered an effective solution across a range of applications, and we have made continuous improvements to ensure even better performance.

- Near-net formed spider gears engineered to be stronger than ever
- Assembly case built from a stronger grade of steel
- Built to meet OE standards set by Dana

SPICER® and SVL® RING & PINION UPGRADE BUNDLES - 2007-CURRENT RUBICON

Dana has provided our drivetrain expertise to Jeep manufacturing since 1941. We know Jeeps— we know their specifications and we know the people who have made Jeep synonymous with adventure. As Jeep enthusiasts upgrade their axles to accommodate larger tires, Dana understands the range of parts needed to make that modification successful. That's why we've engineered a range of ring and pinion sets to match these axle ratios.

BLAZE YOUR OWN TRAIL.

SPICER® 1350 DRIVESHAFT FOR ULTIMATE DANA 60™ EQUIPPED JEEP® WRANGLER® JK

For Your Lifted Jeep JK—Engineered by Dana, for Dana.

Built from high-quality steel to deliver the ruggedness and durability you're already getting in your Ultimate Dana 60™ axles, 1350 series driveshafts are engineered for applications that require high horsepower and torque.

- 100% bolt-in solution
 - Includes all required mounting hardware
- Extra thick tubing
 - 2 inch outer diameter / .120 inch thick wall tube
- Long-slip design
 - Features 6 inches of travel
- Slip assembly located at the T-case
 - Minimizes impact damage and contamination

Longer slip yoke for increased travel

Allows for more extension and compression while navigating the trail.

SPICER 1350 SERIES DRIVESHAFT FOR ULTIMATE DANA 60™ EQUIPPED JEEP JK

2007-16 Jeep Wrangler JK 4 Door	wit UD60™ Only	2-6"	Yes	Yes	10049168	10049169

THE DANA—JEEP STORY

For more than 75 years, the Jeep® name has been synonymous with rugged performance—and for more than 75 years, Jeep® has trusted Dana® axles with Spicer® gearing as their original equipment.

Today, we make sure Dana and the Spicer brand are at Jeep events, shoulder to shoulder with those who live and breathe all things Jeep. Living the Jeep lifestyle, we understand the demands placed on these vehicles, which provides insight and inspiration to develop product enhancements to meet the rigorous demands of the trails.

Look for Dana and the Spicer brand at a Jeep event near you, and check us out on the web at www.SpicerParts.com for more information about the complete line of Dana and Spicer driveline and axle products.
