

# Rain-X Latitude® Wiper Blades

The Rain-X Latitude® Blade offers ultimate visibility in rain, sleet and snow.

## EASY TO INSTALL

- For use on either originally installed standard or curved style wiper blades
- Pre-installed with small j-hook adapter and contains multi-adapter for side pin, large j-hook and bayonet wiper blade arms
- Rain-X Latitude® blades fit I&L (Insert & Lock) and PTB (Pinch Tab Button) wiper blade arms

## HIGH PERFORMANCE WIPE

- Contoured design applies even pressure along the entire blade length
- Specially blended graphite coated rubber blade delivers the ultimate smooth, clean, chatter-free wipe
- Built-in aerodynamic spoiler significantly reduces drag, noise and wind lift

## ICE RESISTANT FRAME

- Prevents ice and snow build-up through the elimination of exposed metal components
- Durable, rubber-encased substructure increases wiper flexibility and adherence to the windshield in harsh conditions
