Introducing our new and improved Hose Connector Assortments- the new updated range of sizes will make sure you won't be caught without the right size to make a repair!

Part No. 91175

Part No. 91174

### New Upgraded Components to Match Fuel Line and Heater Hose Offerings

NAPA Belts/Hose has upgraded its Fuel Line and Vacuum Tubing Connector Assortment and Heater Hose Connector Assortment with an updated range of sizes. Both products have upgraded components needed to match the NAPA Belts/Hose fuel line and heater hose offerings and provide convenient storage for the complete line of fuel and vacuum tubing connectors. In addition, NAPA Belts/Hose connectors utilize premium materials designed for maximum durability when exposed to today's many varieties of coolants and fuels. Packaging has been updated as well to save you time finding parts. The new inside cover plan-o-gram on both products easily identifies the location of each type and size connector.

### Connectors

- **Multiple Configurations**  
Using straight, elbow, and "T" shapes, almost any hose configuration can be constructed
- **Single-Barb Design**  
Unique single-barb design ensures a leak-proof seal
- **Glass-Filled Black Nylon Material**  
Resistant to coolant additives, gasoline, diesel, oil and LPG
- **Temperature Range -50 °F to 275 °F**  
Able to withstand extreme hood temperatures
- **Refills**  
Components are available individually in convenient 5-pack refills

### New Case

- **Connectable**  
Containers can be connected to create a double-sided unit
- **Locking System**  
Premium locking system ensures components stay put

### Fuel Line and Vacuum Tubing Assortment

NAPA Belts/Hose #91174 includes an assortment of premium automotive fittings for use as a fuel line connector, vacuum hose connector and for use in emission control systems.
