## TRACTION CHAIN

**SQUARE LINK TIRE CHAIN MADE OF PREMIUM ALLOY  
TITANGRIP® STEEL FOR EXTENDED WEAR AND  
STRENGTH - DESIGNED FOR OVER-THE-ROAD USE,  
BUT STANDS UP TO OFF-ROAD CONDITIONS**

**pewag**

The Star Wave design has additional edges to improve traction and give you more grip.

Reversible Design increases lifespan and reduces cost per kilometer.

### The advantage

- Increased wear volume (20%) resulting in a longer life
- Deeper Core hardening resulting in a more durable chain
- Grooved finish allows the chains to bite into the hard surfaces
- Lasts up to 48x longer than commodity twist link
- Lasts up to 8x longer compared to commodity v-bar
