

# 3-HOLE TEC-360™ CLAMP

**Another Industry First!** Tectran revolutionized the standard 3-hole clamp for tractor-trailer connection lines with the patented TEC-Clamp™ and now has set the bar even higher with the new **3-Hole TEC-360™** Clamp (US Pat. D795052). It can be installed and adjusted without any hardware or tools needed and the TEC-360™ swivel top allows for the connection system to rotate and move freely during use in order to prevent:

- Binding & tangling
- Interlocked tender kit springs
- Stress on connection points

**Part No. 9888ST360**  
**Stk. Code 47367**

**CLAMP. LOCK. GO.**

• Stainless steel Speed Clip for use with both Tender Kit & Pogo Stick suspension set-ups

• Swivel feature allows for full 360° rotation in either direction – no binding!

• Heavy duty polymer body with integrated hinge provides superior strength and high performance in the most extreme application environments

• Innovative and highly-secure aluminum locking clasp can be opened and closed by hand for installation and adjustment – No tools needed!

Red “power tab” (included) can be added to clamp so it can accept smaller OD, non-ABS 7-way cables

Compatible with both coiled and straight connection lines for maximum application coverage
