

BULL-NOSE SOCKETS

RUGGED ELECTRICAL CONNECTION SOLUTIONS - Tectran has developed a better way to ensure sound electrical connections between the tractor and trailer. Tough “BUFFALO” plugs and sockets put up a hefty fight against corrosion and harsh handling.

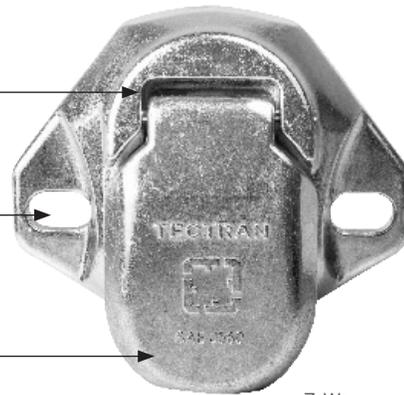

Part No. 670-72
Stk. Code 38076

Stainless steel latch spring is enclosed in the housing to prevent exposure to the elements

Durable, die cast housing with extra thick mounting ears

“Bull-Nose” socket lid design allows the driver to catch and lift the lid from the underside and insert the plug with one hand, allowing a free hand to hold lines up off the deck

7-Way
Bull Nose Socket

The Complete Line-Up

The innovative “Bull-Nose” socket housing is available in a variety of configurations for every application. Please see our website, print catalog, or contact your local sales representative or sales office for more information.
