

Durasleeve is a simple solution to potentially expensive problems. By providing exceptional value for your bottom line, it is the ideal choice in shaft repair technology.

Its unique hard-surface feature significantly increases longevity when compared to your average wear sleeve, thereby reducing downtime and costly repairs.

**HIGH WEAR RESISTANCE**

**LOW FRICTION**

**SUPERIOR CORROSION RESISTANCE**

Maximize your uptime and your profit with the Durasleeve. Designed and manufactured in North America from American steel.

## Do you want to:

- Reduce costly downtime?
- Decrease expensive repairs?
- Eliminate leaking seals?
- Prevent component failure?
- Repair worn shafts?
