

COMMERCIAL 8 VOLT SERIES

BATTERIES

- *Specifically designed to handle the rigors of long, deep discharges and long, slow recharges. Delivers dependable power for trolling motors, heavy auxiliary loads, communications, electronic equipment and power for starting.*
- *Durable hard rubber one-piece cover resists breakage.*
- *Low maintenance battery reduces watering intervals.*
- *Handles for ease of transportation.*
- *Specially formulated deep-cycle oxide is precision pasted onto grids.*
- *Full-frame grids enhance efficiency of current flow and resist vibration damage for trouble-free service. There are no sharp grid wires to cause shorts.*
- *Exclusive, deep-pocket envelope separators virtually eliminate shorting. Narrow ribs reduce separator "corrode thru." Double insulated Glass Mat separators protect plates and lock active material to retard shedding and strengthen plate.*
- *Specially formulated electrolyte uses demineralized water for significantly reduced water loss and gassing.*
- *With more than 250 quality control checks and computer-aided design, these batteries not only look tough, but are built tough.*
