CARING FOR YOUR FURNITURE:

- * Use a soft, clean cloth that not scratch the surface when dusting
- * Use of furniture polishes are not necessary. Should you choose to use polishes, test in an inconspicuous area first.
- * Using solvents of any kind on your furniture may damage your furniture finish.
- * Never use water to clean your furniture as it may cause damage to the finish.
- * Always use coasters under beverage glasses and flowerpots.
- * Liquid spills should be removed immediately. Use a soft, clean cloth, blot the spill gently. Avoid rubbing.
- * Direct sunlight may damage wood finishes.
- * Extreme temperature and humidity changes can cause warping, shrinking and splitting of wood furniture. It is best to keep furniture in a climate controlled environment.
- * Always use protective pads under hot dishes and plates. Heat can cause chemical changes that may create spotting within the furniture finish.
- * In the event that your furniture is stained or otherwise damaged during use, we recommend that you call a professional to repair your furniture.
