Nice Piece ★★★★★ 5 out of 5

I got this credenza and hutch, it is well-built and exactly what they described. I will highly recommend it.

Excellent Desk!! ★★★★★ 5 out of 5

This desk was chosen because of the sturdiness of the wood and the finish was very nice. Overall product was made to my satisfaction.

Love it! ★★★★★ 5 out of 5

I've had to wait a long time to finally have enough space to call my own office. Looked around quite a while to get something this nice. Worth every penny. Great craftsmanship.

Beautiful Piece ★★★★★ 5 out of 5

I purchased this bookcase in conjunction with another *Pont Lafayette* collection purchase. This collection is functional enough to be what you need it to be in your office yet beautiful enough to co-exist in your living room if need be. Well made, attractive, and substantial. You will not be disappointed with this collection.

Great work space. Nicely manufactured and a great, functioning, keyboard tray that hides the small things and cables to allow for a more productive and streamlined work space.

Came in perfect and I love that I didn't have to assemble anything but putting the handles on. Looks beautiful!

■ Elements of Style

The picture frame molding on doors and drawers, curved top molding, carved feet and a rich, dark finish are elements that bring to mind the style named for Louis Phillipe, the French “citizen king” who reigned from 1830 to 1848.

Louis Phillipe championed the middle class — which was reflected in the furniture that bears his name. It wasn’t as pretentious or lavish as previous furniture designs, and was furniture that many people would find useful. Likewise, this modern interpretation meets your storage, organization and technology needs beautifully.
