

Components for Standard Tables

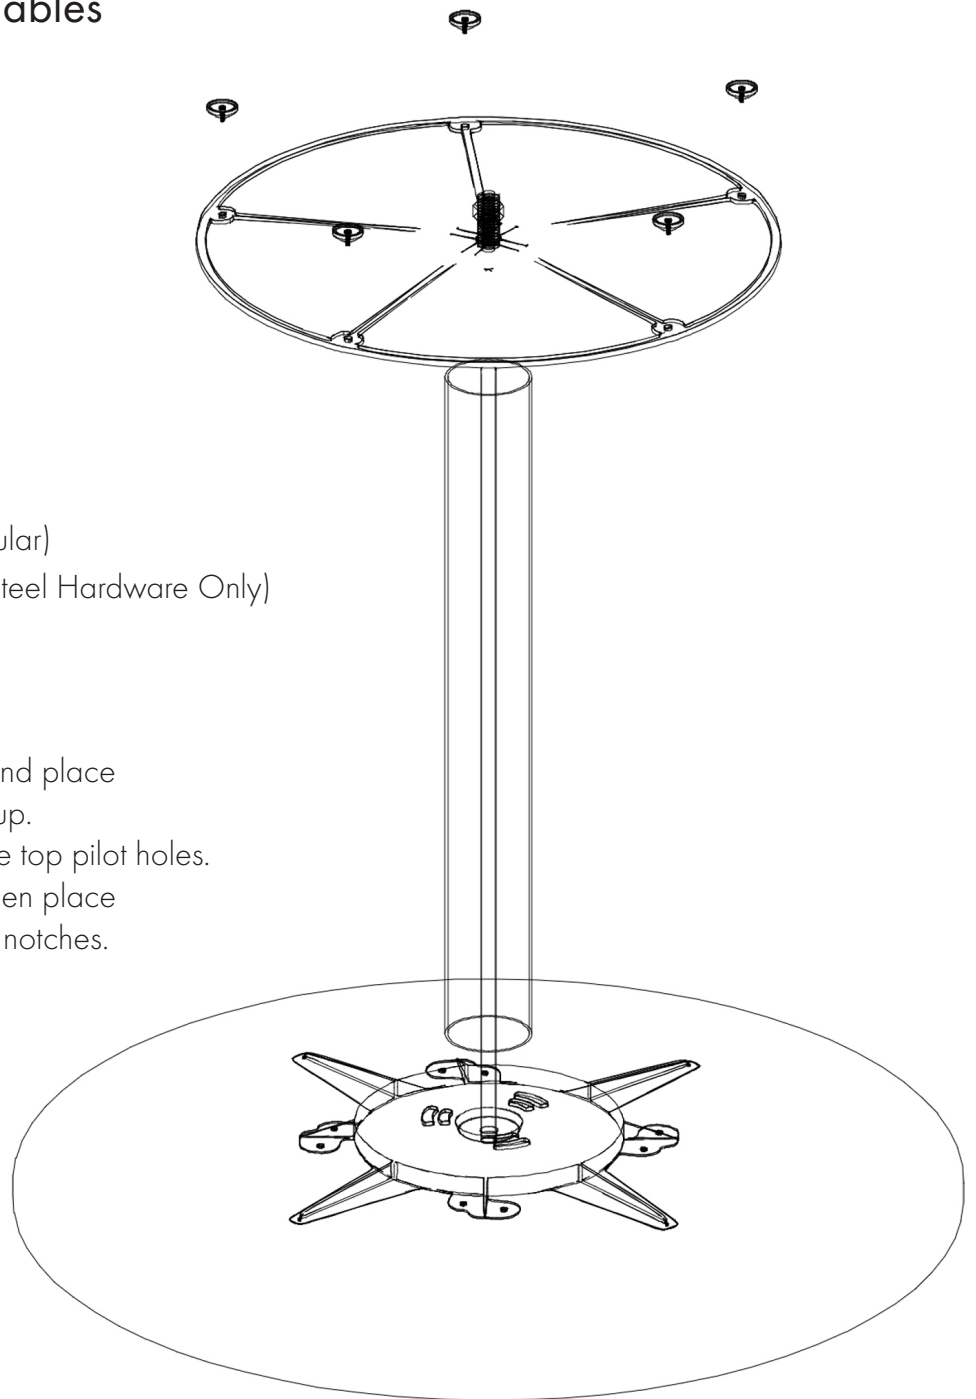

- Table Top (1)
- Rod (1)
- Base (1)
- Column (1)
- Spider (1)

Hardware

- Screws
- Large Washer
- Small Washer
- 9x1 - 14 Nut
- Glides (4 for Cross Base, 5 for Circular)
- Tapered Wood Screws (Stainless Steel Hardware Only)

Table Assembly Instructions

1. Set table top on floor face down.
2. Pierce rod through center of spider and place on table top with thread end facing up.
3. Insert screws through spider into table top pilot holes.
4. Slide column over rod onto spider, then place column over rod centering on spider notches.
5. Place the base face down onto column and rod.
6. Start the nut on the threads. While tightening hold tension on the rod to prevent spinning.
7. Thread the glides into the base if required.
8. Flip table onto base and enjoy!

Putting together your new table is easy!
