Mobile Medical Recliner

Infinite Position Non-Locking Back

Dimensions

Width	34"	Weight	160 lbs.
Depth	38"	Cubic Feet	28
Height	47"	COM (Yds.)	6
Seat Width	24"	Seat Depth (Kickout)	40"
Seat Depth	21"	Reclined Depth	76"
Seat Height	21.5"	Weight Capacity	500 lbs.
Back Height	26"	Distance from wall	19"
Arm Height	28"		

Product Information

- > Standard with black urethane arm caps.
- > Standard with left side facing grey handle.
- > Standard with Padded Pushbar to make moving patients easier.
- > Standard with LiquiCell technology (Four gel pads strategically placed in seat).
- > Standard-2 swivel locking casters in rear & 2 rigid locking casters in front.
- > Weighted Rate - 500 lbs.
- > Seat Foam Density - 2.3 HR (High Resiliency)
- > Back Foam Density - 1.75 HR (High Resiliency)
- > All interior plywood is "California Carb Compliant/Phase II."
- > Arms are 3/4 " (6 ply) poplar plywood construction locked together with puzzle joint construction, glued, and nailed.
- > Back posts are constructed using 25mm (18 ply) Baltic Birch plywood.
- > Back cross rails use solid hardwood components that are double-dowelled, glued, and screwed.
- > Infinite reclining positions (not limited to specific positions). Patients can adjust seating and back positions to their exact preference through simple body movement.
- > Easy to remove back to clean for infectious disease control.
- > 4" commercial grade locking casters - (Easy to transport patients from patient room to treatment room in stress-reducing comfort) Casters tested to accommodate up to 880 lbs.
- > Rugged metal seat frame with 8 gauge sinuous steel springs.
- > Reinforced steel leg rest scissors mechanism.
- > Mid-ottoman calf support - Enhances cushioned comfort for the entire length of patients' leg.
- > Extra heavy steel platform provides dimensional stability to body sides.
- > High strength steel (9 gauge) flat lay-out recline mechanism.
- > High strength nickel steel bushings.
- > Break-away footrest. The ease or the difficulty of closing the footrest is based upon the size/weight of the individual sitting in the chair. Stiffer springs can be added if necessary.
- > Modular frame construction - easy to replace parts (arms, seat, back, and mechanism)
- > Optional arm caps attach using spring steel compression dowels.
- > All accessory mounting brackets attach to metal insert nuts (no wood screws).
- > GREENGUARD Children & Schools Certification.
