

Wine Aerator with Stand & Accessories

Quick Start Guide

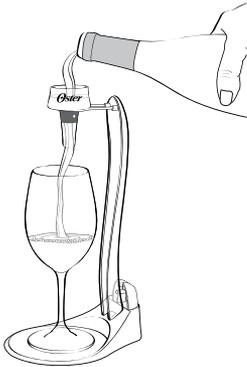

Step 1

To set-up your Wine Aerator Stand, simply insert the Stand into the Base. The included Foil Cutter can be conveniently stored in the base compartment behind the Stand. Store the Wine Collar and Wine Pourer in the Velvet Bag when not in use.

Step 2

To use your Wine Aerator, simply place the Aerator into the holder at the top of the Stand. Then place your wine glass onto the base, so that the mouth of the wine glass is centered underneath the Aerator.

Step 3

Pour the wine into the aerator and watch as the wine slowly filters through the aerator and into your wine glass. The filtering process introduces oxygen to the wine, instantly making it taste fresher and smoother. Be careful not to cover the holes on either side of the aerator, as this will prevent the aerator from working correctly. Finally, drink and enjoy!

Cleaning & Care

Always rinse your wine aerator after each use. Hand wash only with mild soap; this product is **NOT** dishwasher safe.
