# Gourmet Dog Treat Maker

**INSTRUCTION MANUAL**

## **IMPORTANT SAFEGUARDS**

When using electrical appliances, basic safety precautions should always be followed, including the following:

### **READ ALL INSTRUCTIONS BEFORE USE**

- Do not touch hot surfaces. Use Handle or Knobs.
- To protect against electric shock, do not immerse cord, plug or any part of the Treat Maker in water or other liquid.
- Close supervision is always necessary when it is used by or near children.
- Unplug unit from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate this or any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Return appliance to the manufacturer or the nearest service agent for examination, repair, or adjustment.
- Do not let the cord hang over edge of table or counter, or touch hot surface.
- Do not place on or near a hot gas or electric burner or in a heated oven.
- Do not use the appliance for other than its intended use.
- Make sure that your outlet voltage corresponds to the voltage stated on the rating label of the Treat Maker.
- Any examination, repair or adjustment for the appliance should be made by the authorized service agent.
- Do not use outdoors.
- No user-serviceable parts inside. Do not attempt to service this product.
- To disconnect appliance, remove plug from wall outlet.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.

**SAVE THESE INSTRUCTIONS**

A short power-supply cord is provided to reduce the hazards resulting from entanglement or tripping over a longer cord. An extension cord may be used with care; however, the marked electrical rating should be at least as great as the electrical rating of the Treat Maker. The extension cord should not be allowed to drape over the counter or tabletop where it can be pulled on by children or unintentionally tripped over.

	<p style="text-align: center;"><b>POLARIZED PLUG</b></p> <p>This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way. If the plug fits loosely into the AC outlet or if the AC outlet feels warm do not use that outlet.</p>
---	---

**CAUTION:** Some countertops are more sensitive to heat, use care not to place Treat Maker on surfaces where heat may cause damage.

**ELECTRIC POWER:** If electric circuit is overloaded with other appliances, Treat Maker may not operate properly. Treat Maker must be operated on a separate circuit from other operating appliances.

**THIS UNIT IS FOR HOUSEHOLD USE ONLY**

# PREPARING TO USE YOUR TREAT MAKER FOR THE FIRST TIME

Before using your Treat Maker for the first time, clean the cooking surfaces:

- With the appliance unplugged, clean the cooking surfaces with a cloth or sponge dampened with hot, soapy water. **DO NOT IMMERSE UNIT IN WATER.** Rinse with a dampened cloth or sponge and wipe dry.
  - **Note:** When using your Treat Maker for the first time you may notice a fine smoke haze being emitted from the unit. This is normal. It is due to the initial heating of the internal components.
1. Plug the power cord into the AC outlet.
  2. Before use, the red 'POWER ON' indicator light will be on when the unit is plugged in. When the green 'READY' indicator light turns on, it means the Treat Maker temperature is ready.

## CAUTION:

1. When it is difficult to close the machine, it means that too much filling was added. You should reduce the filling or replace with thinner mixture to prevent damaging the Treat Maker.
2. When removing treats from machine, do not use any utensil that may damage the non-stick coating. Use wood or plastic suitable for high temperatures.

## MAINTENANCE AND CLEANING

1. Unplug and allow unit to cool completely before cleaning.
2. Clean the cooking plates with a soft cloth or sponge dampened with hot, soapy water. **DO NOT IMMERSE THE UNIT IN WATER OR ANY OTHER LIQUID. DO NOT PLACE THE Treat Maker IN A DISHWASHER.**
3. To remove cooked-on food, use a nylon scrubby or non-abrasive cleanser. A steel wool pad or other abrasive cleansers may damage the non-stick surface.
4. To clean the exterior simply wipe with a dampened cloth and polish dry with a dry soft cloth.

# CREATING ORNAMENTS

1. Fully cook treats
2. Allow treats to cool 3-5 minutes
3. Place treats on solid surface counter
4. Using a standard drinking straw, pierce a through hole large enough for string or a ribbon to go through
5. Decorate treats
6. Tie a knot sufficient for hanging ornament

## TIPS:

1. If the through hole is too close to the top or side of the treat it may crack. If this occurs create the hole further away from the top or edge of the treat.
2. Treats that are made from all natural ingredients can grow mold in certain conditions, this is a natural occurrence when treats are used as ornaments

# OPERATING INSTRUCTIONS

**STEP 1:** Allow the Treat Maker to pre-heat until the 'READY' light comes on.

**STEP 2:** With the Treat Maker fully opened, pour batter into shapes, filling the outer shapes first then the inner ones. (*fig. 1*)

*figure 1*

**STEP 3:** Gently close the lid, ensuring the latch locks into place. (*fig. 2*)

**STEP 4:** Allow to cook according to recipe.
