ITM./ART. 450104

OPERATING INSTRUCTIONS

- 1 Place heater on a firm, level surface.
- 2 Plug heater into a standard outlet. Never use with an extension cord or relocatable power tap (outlet/power strip). Once plugged in, the Power Light will illuminate.
- 3 Operate heater by pressing the Power Button (⏻) located on the unit or remote control and selecting modes and settings according to preference.

Power On/Off
 Press the Power On/Off Button to turn the heater on.

Oscillation
 Press the Oscillation Button to activate or stop the oscillation feature.

Fan Only Setting
 Press the Fan Only Button to run the heater without heat output.

Timer
 The 24-Hour Auto Shut Off Timer allows you to program your heater to shut off automatically after a defined time interval.

Eco-Smart™ Setting
 Press the Eco-Smart™ Button to activate the energy efficient Eco-Smart™ Mode.

Thermostat Dial Wheel
 Use the dial wheel to set thermostat.

HIGH Heat Setting
 Press the Max Heat Button to run the heater continuously at 1500W.

BCH9212

P.N. 157885/9210050002936

**IMPORTANT: PLEASE REMOVE
BEFORE USE.**

IMPORTANT NOTICE:

There may be odor and vapor coming from the heater the first time you use it or after storing the unit. This is normal and is the result of dust and other debris accumulating on the heating element. Make sure the heater is in a well ventilated area and continue running it until the odor and vapor go away.

Your heater is packed with a separate base in the box. When assembling the base, carefully remove all parts from the plastic bags. To prevent scratches, place all parts onto a cloth before assembly.

Refer to the instruction manual for further information about your Bionaire® heater.
