

MR. COFFEE[®] café latte

QUICK START GUIDE

REFER TO THE PRODUCT MANUAL FOR IMPORTANT SAFEGUARDS AND CLEANING INSTRUCTIONS.

Assemble the lid and whisk

Remove whisk from brew basket and snap into place on the inside of the lid.

1

Just Add Water and Coffee

- Lift the brew basket lid up and put a paper filter into the brew basket along with ground espresso or coffee (3 TBSP Single, 6 TBSP Double).
- Add cold water into the reservoir up to desired water level marking, single (☕ 4oz) or double serving (☕ 8oz).

2

Now add ingredients to the latte pitcher

- Remove the pitcher from its base and remove the lid by twisting counter clockwise.
- Add milk to the desired level marking, single (☕) or double (☕) serving (should correspond to the water level used in the reservoir).
- Add any other ingredients for your desired recipe.
- Secure the lid onto the pitcher, by twisting clockwise, and place the pitcher back onto the base with the pitcher handle facing out.

CLASSIC LATTE Double Serving

Espresso or Coffee, Water, Milk

(6 tablespoons) (8 oz) (13 oz)

- + Add 6 Tablespoons of ground espresso or coffee.
- + Add water to the double serving marking in the reservoir (☕ 8 ounces).
- + Add milk to the double serving marking in the pitcher (☕ 13 ounces).

Use sugar or sweetener as desired.

Froth volume will vary with the type of milk used. For Soy, Almond, or Non-fat milk, use less milk to avoid pitcher overflow. For whole milk, expect less froth.

3

Easy to use controls

- A.** Make sure the appliance is plugged in.
- B.** Push the selector switch up to the latte function.
- C.** Lower the on/off lever to turn the appliance on.
- D.** The power light will illuminate while the cycle is active and turn off when the automatic cycle completes.

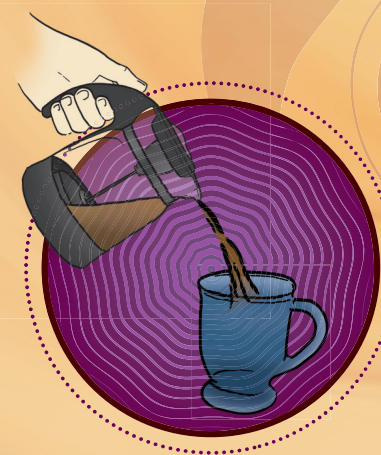

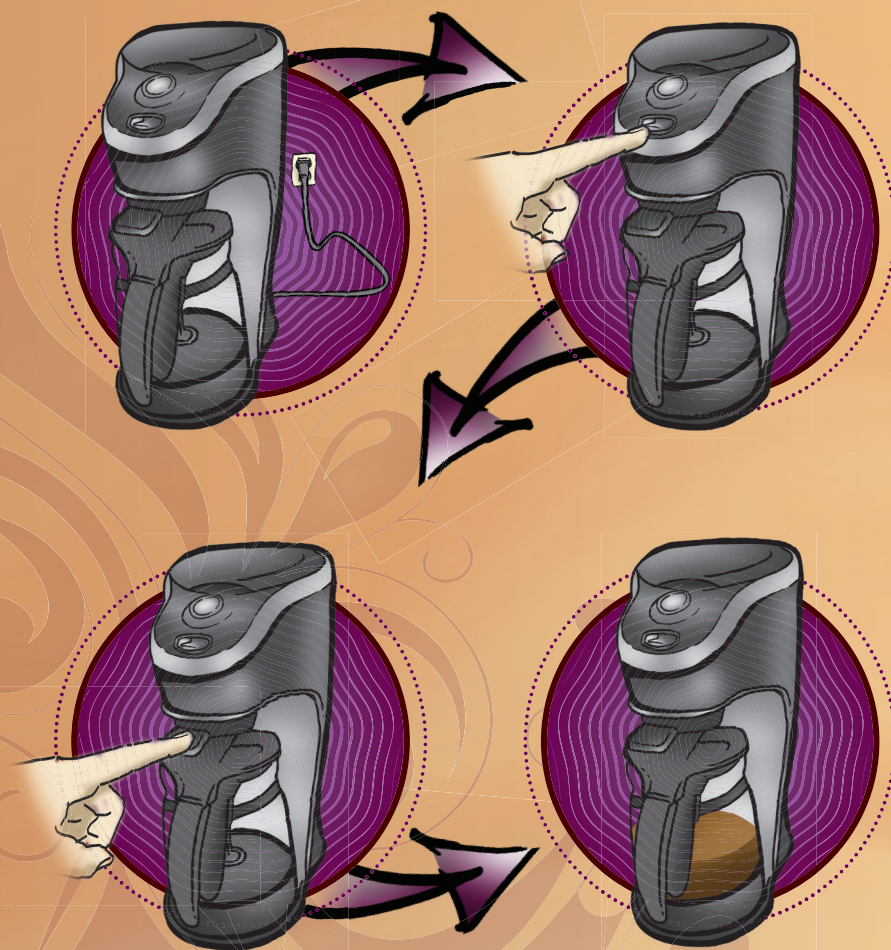

4

Ready to serve

- A.** Raise the on/off lever and remove the latte pitcher from the base.
- B.** Pour latte into serving glasses and spoon any additional foam desired to complete your latte.

5

Pour & Enjoy
