

Filter Replacement Instructions

- 1) Turn off your unit before replacing the filter.
- 2) Remove each of the True HEPA filters from the unit by pulling gently towards you.
- 3) Carbon Filter-Remove the old carbon filter and insert a new carbon in its palce, using the plastic hang tabs as a guide (Figure 1).
- 4) HEPA Filter-insert new True HEPA filter assembly by sliding it onto the filter hanging tabs on the air purifier (Figure 2).
Check to make sure the filter is firmly in place.

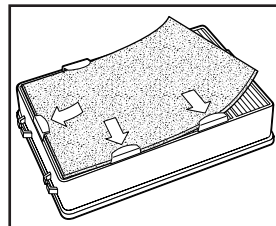

Figure 1

Replacement Filters:

HAPF60	=	Carbon Filter	(4 per pack)
HAPF600	=	True HEPA Filter	(1 per pack)
HAPF600D	=	True HEPA Filter	(2 per pack)
HAPF600T	=	True HEPA Filter	(3 per pack)

This carbon filter is enhanced with baking soda to help absorb and reduce household odors.

Please note that the baking soda has the appearance of white flecks on the carbon filter.
