

Tip #1: Set the Clock

In order to use Delay Brew, you must first set your clock to the proper time. Plug in your coffee maker. The time will flash. Press and hold the HOUR and MINUTE buttons until you reach the current time.

IMPORTANT

Before using delay brew you must set the unit's clock to the correct time

Tip #2: Set Delay Brew TIME

Press "SET DELAY". You can preset the coffee maker to begin brewing up to 24 hrs. in advance. Press the HOUR & MINUTE Buttons to set your brew time. When you're done, the display will change back to the current time.

Tip #3: Set the Delay Brew FUNCTION

Depending on your model you'll either press Select/Off twice OR Press the DELAY BREW button once. The light will turn on indicating that the function has been set.

Tip #4: Prepare Coffee Maker to Brew

Prepare your coffee maker with Water, Filter, Ground Coffee and Carafe so that your coffee is ready to brew at your set brew time.

Tip #5: Delay Brew Doesn't Auto Repeat

Delay Brew will NOT automatically repeat from day to day. If you want your coffee to brew at the same time the following day, simply prepare your coffee maker and set DELAY BREW, by repeating the above steps.
