| 6 Porta-Filter Retention Clip | 16 Filter for Single Shot of Espresso (1 cup) |
| 7 Measuring Scoop/Tamper | 17 Filter for Double Shot of Espresso (2 cup) |

IMPORTANT

Your Mr. Coffee® Café Barista must be **PRIMED** prior to first use. Refer to your instruction manual on how to prime the appliance and for other important safeguards.

Brewing

- 1 Choose your filter (single or double shot). To insert filter, make sure to align the notch on the filter with groove on the porta-filter. Once inserted, turn filter to left or right to secure in place.

- 2 Fill the filter with espresso grounds. Tamp firmly and level. Clean excess grounds from rim of porta-filter.

- 3 Attach porta-filter to brew head of unit by aligning the handle with the “☐” icon and turn to the right until handle is aligned with the “🔒” icon.

Brewing continued

- 4 Fill the removable water reservoir with water and place on unit.

- 5 Fill the removable milk reservoir with your preferred milk (whole, skim, soy, almond, etc) and place on unit. Be sure to push the reservoir all the way into the unit.

- 6 Please make sure to select the right cup size according to the following table:

BEVERAGE		AMOUNT
Espresso	Single (☕)	1.25 oz
	Double (☕)	2.5 oz
Cappuccino	Single (☕)	6 oz
	Double (☕)	10 oz
Latte	Single (☕)	12 oz
	Double (☕)	15 oz

Brew espressos

- a** Press the Espresso Button “☕” once to brew one single shot.
- b** Press the Espresso Button “☕” twice to brew a double shot.
- c** To customize the amount of espresso brewed, press and hold the Espresso Button “☕” for 3 seconds. When desired amount is reached, press the Espresso Button “☕” once again to stop brewing. For safety, unit will automatically stop after brewing 5 ounces.

NOTE: *For a single shot, use the single shot filter. For a double shot, use the double shot filter. Pull out the cup height adjusting tray if you are using a small “demitasse” cup to brew espresso.*

Prepare Cappuccinos

- a** Press the Cappuccino Button “☕” once to brew a small cappuccino.
- b** Press the Cappuccino Button “☕” twice to brew a large cappuccino.
- c** Adjust the amount of froth to your preference by turning the Froth Control Knob to the right for more froth and to the left for less froth. For Cappuccino, it is recommended that the Froth Control Knob be turned to the Cappuccino setting.

NOTE: *Be sure to aim the frothed milk dispensing tube towards the center of your cup by using the frothing tube lever. For a small cup, use the single shot filter. For a large cup, use the double shot filter.*

Create Lattes

- a** Press the Latte Button “☕” once to brew a small latte.
- b** Press the Latte Button “☕” twice to brew a large latte.
- c** Adjust the amount of froth to your preference by turning the Froth Control Knob to the right for more froth and to the left for less froth. For Latte, it is recommended that the Froth Control Knob be turned to the Latte setting.

NOTE: *Be sure to aim the frothed milk dispensing tube towards the center of your cup by using the frothing tube lever. For a small cup, use the single shot filter. For a large cup, use the double shot filter.*

Customizing / Preparing additional frothed milk

Adding more froth to your beverage is easy. Place your beverage under the porta-filter and press and hold the Cappuccino Button “☕” for 3 seconds and the Café Barista will begin dispensing more frothed milk. Press the Cappuccino button again to stop. To make frothed milk separately, follow the same instructions but place an empty cup under the porta-filter.

Cleaning your Café Barista

Once you are done preparing your beverage with milk, you can either store the unit's milk reservoir with leftover milk directly in the refrigerator (ready to be used for the next time) or dispose of the leftover milk.

- a** Clean the Frothed Milk Dispensing Tube after each use. First, place an empty cup on the unit's drip tray. Aim the Frothed Milk Dispensing Tube into the empty cup. Next, adjust the Froth Control Knob to Clean “☕”. Then press and hold the Latte/Clean button for 3 seconds. The unit will run the clean cycle for 30 seconds. Once completed, throw the contents in the cup away.
- b** Once you are done preparing your beverage with milk and/or cleaning the Frothed Milk Dispensing Tube, you can either store the unit's milk reservoir with milk directly in the refrigerator or dispose of the leftover milk.

NOTE: *For more cleaning instructions, refer to the instruction manual. Porta-filter is not dishwasher safe.*
