

How To Use Water Filtration

Tip #1: Can you Use Water Filtration?

To know if your filter basket can be used with water filtration, flip it over, and, look for the Mr. Coffee® Filtration Friendly symbol on the bottom of your filter basket

Tip #2: Before First Use

Prior to using for the first time, just give your water filtration disk a rinse in fresh water.

Tip #3: Reminder to Replace Monthly

Align the red indicator on the frame to the letter that corresponds with the month of your first disk use. This serves to remind you to change the disk every month.

Tip #4: Prepare Your Coffee Maker to Brew

To use the water filter fill your brew basket with grounds according to your model's "adding coffee and water instructions."

Tip #5: Using Water Filtration

Position the filter on top of the brew basket, and brew according to your particular model's brewing instructions.
