AT WORK COLLECTION
modern design at an affordable price

Design Tip: A standing height desk is a great companion to your standard desk, or it can serve as a walk-up work station, buffet or project table.

An Agile Design for Modern Offices

Build an attractive, high-functioning office with straightforward design elements and versatile *At Work Collection* furniture. Reception, office, meeting and training areas all benefit from the agility of furniture pieces that you can set up in a way that fits your routines. As work groups grow and change over time, so do their furniture needs, and the *At Work Collection* is there, ready to move into action.

Tables double as desks for the office or in the training room, or fasten together as small group workstations. Mobile storage and file cabinets roll smoothly to where they are needed. People share a meal at a small table that can later be used for a meeting. Add an organizer hutch to a standing-height table to create a project center.

Design Tip: A round table is just the thing for small groups working together, for taking a coffee break or a quick lunch. >

Understated textures and patterns, a blend of modern materials and beautiful color contrasts create a harmonious environment. Add storage cabinets, file cabinets, credenzas and tables tailored to each individual in your office.

Affordable furniture that works with you, even as your work changes over time: that's great value!

Assuring Selection, Quality and Value

We believe that the right color and style can transform an office. A new look can impart a whole new atmosphere and energy. Add in quality materials and construction, an affordable price, and furniture that suits you perfectly, and you've got a product that gives you an excellent value. To us, furniture with those qualities is worthy of our NBF Signature Series label.

Compact L-Desk Set (6)

Executive Office Suite

What our customers think about the At Work Collection

Great desks for small spaces

★★★★★ 5 out of 5

I have ordered this desk several times now for my office because it provides the user with ample room to work, space to conduct meetings and it is perfect for open office areas where modular furniture would usually be utilized. The 60 sq. in. footprint is perfect for small office areas, especially when you need to provide space for two people to work without cluttering the room.

Great height

★★★★★ 5 out of 5

This table is a great height to be able to stand up and work. We use them in an art department as a work surface for cutting and assembling materials, as well as for spreading out artwork for review. Great table.

Great unit with plenty of space

★★★★★ 5 out of 5

Sturdy and visually appealing, goes well with the rest of the At Work set. Big drawers with plenty of room for files and storage. Comes pre-assembled, just need to attach handles and casters. Nice and easy!

Very happy with this desk

★★★★★ 4 out of 5

The desk went together easily and looks great! We will probably be purchasing more in the future.

Efficiency Starts at the Lobby

Attractive, functional reception areas begin with good design. With the *At Work Collection*, you select a basic reception desk or reception L-desk as your centerpiece, and work from there to create a lobby that works smoothly and efficiently.

Reception Desk

Reception L-Desk (right return)
Reception L-Desk (left return)

Design Tip: Mobile storage and file cabinet pedestals make a great addition to any reception desk. The pedestals add extra storage for paperwork and office equipment and can be easily moved to other areas in the office.
