

RESERVORIO™

COLORBODY™ PORCELAIN FLOOR & MOSAIC AND GLAZED CERAMIC WALL

AMERICAN OLEAN®

STONE LOOK

AMERICAN OLEAN®
PROVEN IN TILE™

RESERVORIO™

Drawing inspiration from the organic design of travertine stone, Reservoirio™ envelops your space with a natural color palette and authentic veining, creating an environment of serene beauty that blends into any setting. A canvas for elegance, the large format 24 x 48 lends to a seamless design, while the 12 x 24 Fluted tile introduces depth and intrigue to your interior. Reservoirio makes a statement while preserving the tranquil ambiance of a natural stone look.

Cover Photo features Lotus, 12 x 24 Fluted wall tile on the wall and Lotus 24 x 48 on the floor.
Above Photo features Pebblestone, 12 x 24 Fluted wall tile on the bedroom wall, Pebblestone 1 x 4 mosaic on the bathroom wall and Pebblestone 12 x 24 on the floor.

DURABILITY

Floor Surface Wear Resistance

1	Residential Bathrooms	3	All Residential / Light Commercial
2	All Residential Areas	4	All Residential / Commercial

NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at: americanolean.com/Factors.

Random visuals enhance the natural beauty of this product. To achieve optimal results, all tile should be selected from multiple cartons and shading and graphic arrangement planned prior to installation.

Special consideration needs to be given when installing tiles greater than 15 inches. Please refer to americanolean.com/LargeTiles for more information.

Special care should be taken when grouting with dark pigmented colors. A grout release is recommended to prevent finely powdered pigments from lodging in the pores of the surface. Use of a latex modified thin-set is recommended for installation.
