1. Elixen™ Sonoma Oak
  2. Color Wheel™ Linear Arctic White
  3. Core Fundamentals™ Platinum - Grey
  4. ONE Quartz Surfaces® Simply White
  5. Rice™ Blu Structure
  6. Rice™ Blu

PROJECT NAME:

THE PICKLR

JOB LOCATION:

Lewisville, Texas

## SERVING UP STYLE

The Picklr partnered with Daltile to outfit its newest pickleball club with high-performance materials that support a clean, modern, and cohesive environment. With consistent foot traffic and active daily use, the project required surfaces that balanced aesthetics with long-term reliability.

Leveraging Daltile's extensive product portfolio and national reach, the design team was able to quickly identify solutions that aligned with both the functional needs and overall design vision. The partnership simplified selections, ensured timely delivery, and made it easy to build a unified look throughout the facility.

For the main floor, Elixen™ Sonoma Oak EX30 7x47 was selected as the primary surface. This luxury vinyl provides the warmth of natural wood while offering easy installation and the resilience needed for a high-traffic athletic environment. Its consistent tone helped establish a polished, welcoming foundation for the entire club.

TILE , LUXURY VINYL FLOORING & COUNTERTOPS

In the locker room showers, Color Wheel™ Linear Arctic White 0790 4x12 created a bright, clean visual backdrop. Paired with the deeper tones of Daltile Core Fundamentals™ Platinum UB04 2x2 Mosaic on the floors, the space achieves a modern contrast that feels both elevated and functional. The combination enhances visibility, keeps the space looking fresh, and contributes to a crisp, streamlined locker room aesthetic.

Select countertops throughout the club feature Daltile ONE Quartz Surfaces® Simply White NQ76, chosen for its simple, refined appearance. The clean white surface pairs effortlessly with surrounding materials, adding a sense of clarity and sophistication. Its quartz composition ensures the countertops retain their polished look while supporting everyday activity in key touchpoint areas.

To complete the design, the bathrooms incorporate Marazzi Rice™ Blu Structure RC44 3x8 raked and Blu RC24 3x8. The blend of textured and smooth tile introduces depth and visual interest, while the rich Blu color elevates the space with a subtle, artisan-inspired character. These selections bring a cohesive finishing touch that ties into the overall palette of the club.
