DESIGNED TO BE DISTINCT

Renowned architect and designer Chip Wade leads the creative vision behind three thoughtfully designed homes, with Daltile® partnering to bring each space to life through versatile tile selections, innovative installations, and intentional storytelling. Each house showcases how tile, stone, and surface solutions can shape the atmosphere, demonstrating how material choice can set the mood, enhance functionality, and express individuality. Together, these homes serve as a compelling example of how great design begins with great product selection.

THE PERCH

TILE, COUNTERTOPS & PAVERS

The Tom house is grounded in drama and depth, defined by a luxurious, moody palette layered with masculine character and rich natural woods. In Chip's words, The Tom has "...a rugged charm that blends seamlessly into the mountain landscape." Every space feels curated and immersive, proving that bold design choices can still feel refined and livable when anchored by thoughtful material selection.

Statuette™ Night Shade Picket Mosaic and Statuette™ Paloma Gray Picket Mosaic command attention on the wall through a diagonal installation that adds movement and architectural interest. The interplay of tones and veining brings texture and visual energy, reinforcing the home's richly layered aesthetic. Artefino™ Jewel Antiqued Brass creates a striking vanity wall moment, introducing metallic warmth and playful refinement.

THE PERCH

TILE, COUNTERTOPS & PAVERS

In the primary suite, Panoramic Porcelain Surfaces™ Calacatta Topaz and Sunstone drench the space in expressive marble looks. These large format surfaces elevate the room with scale and sophistication while maintaining a seamless, spa inspired feel that enhances the overall sense of luxury.

The bold palette of The Tom is complemented by ONE Quartz Surfaces® Broadway Black in the kitchen, where deep, saturated countertops further enrich the moody palette.

Extending the design outdoors, Assemble™ Emissary 2cm pavers transform the exterior into a custom grilling and lounge area, proving that the Tom house's bold personality carries effortlessly from inside to out.

The Jake house is an expression of fearless creativity, where color, texture, and shape come together in unexpected ways. This home embraces experimentation and individuality, resulting in spaces that feel energetic, expressive, and unapologetically bold. By Chip's description, The Jake "...boasts a perfect blend of transitional design."

In the kitchen, Pietra Divina™ Namaste Gold Blend Spectrum Mosaic anchors the backsplash with rich variation and luminous depth. The look is elevated further by Natural Stone Quartzite Tahitian Cream countertops, which introduce warmth and natural movement while amplifying the space's vibrant yet grounded vibe.

The bathroom continues this sense of playful balance with Artefino™ Vintage Verdelite Fish Scale Mosaic paired with a coordinating 1x6 pencil mosaic. The sculptural shapes bring personality to the space, while a monochromatic color story ensures cohesion and visual flow.

THE PERCH

TILE, COUNTERTOPS & PAVERS

In the primary suite, Natural Stone Quartzite Lamberti Bianco shines on the countertop and shower seat, enhancing the soft palette without overpowering it. Design ingenuity reaches new heights with a custom mountainscape installation featuring Remedy™ Elixir, Zen, Herbal, Antidote, and Aura.

The creative spirit extends outdoors as well, where Assemble™ Magistrate 2cm pavers provide a durable, easy to clean foundation for an outdoor kitchen that is just as dynamic as the interior. In partnership with Romex, our preferred permeable systems partner, all 2cm pavers were installed using a high-performance system engineered to maintain stability while allowing rainwater to pass through efficiently. Designed to prevent shifting and support long-term durability, the permeable Romex system was a major win for The Perch, preserving natural water flow and allowing the surrounding landscape to remain healthy and connected to its environment.

THE PERCH

TILE, COUNTERTOPS & PAVERS

The Jenny house is a study in softness and elegance, blending regal beauty with cottage inspired charm. Each surface is carefully selected to support a calm, graceful atmosphere with what Chip describes as, "...delightful ambiance that invites relaxation and serenity."

The kitchen backsplash features Miramo™ Sand Fan Mosaic, where curved forms and subtle detailing add gentle movement. Its neutral tone complements the space beautifully, creating an understated focal point that feels refined without excess.

Uptown Glass™ Alabaster Hexagon tile brings a luminous quality to the tub wall and primary suite accents. Natural Stone Marble Thassos White pencil rail tile creates a seamless transition between materials, reinforcing the clean, polished aesthetic that defines the home.

THE PERCH

TILE, COUNTERTOPS & PAVERS

Starcastle™* Milky Way Diamond Scale Mosaic envelops the bathroom from floor to ceiling in shimmering light, creating a serene retreat. The shower seat showcases ONE Quartz Surfaces® Coronado White, while Natural Stone Quartzite Tahitian Cream appears throughout the home, adding warmth and continuity to the predominantly fresh, white palette.

Taking this elegance outdoors, Vertuo™ Maestro and Composer 2cm pavers were used to create a custom checkerboard chessboard that feels both timeless and of the moment. The soft contrast in color and graphic pattern tap into one of today's most influential design trends, where classic motifs are reimagined in fresh, modern ways. This striking installation balances playfulness with sophistication, turning a functional outdoor surface into a true design statement. With built in durability and refined aesthetics, the chessboard invites gathering, interaction, and lasting enjoyment while seamlessly extending the Jenny house's thoughtful design story beyond its walls.

TILE, COUNTERTOPS & PAVERS

Through three distinct design stories, the Tom, Jake, and Jenny homes showcase the breadth and versatility of Daltile's product portfolio. Designed by Chip Wade, each home reflects his creative vision and thoughtful approach, with Daltile selected to meet the unique needs of every space. Together, these projects demonstrate how inspired design, paired with versatile products and expert installation, can shape personality, elevate function, and create lasting impact, proving that with the right vision and the right materials, exceptional design is always within reach.
