# DIPLOMACY™

COLORBODY™ PORCELAIN PAVERS AND MOSAICS

## Subtle Style, Lasting Strength

Diplomacy deftly delivers the quiet strength and visual beauty of quarried Belgian bluestone. Diplomacy is available in two complementary hues that come alive with movement created by delicate highlights of light greys and whites. Large format 2cm porcelain paver tiles pair with existing 3/8" interior tile for a seamless transition from interior to exterior. For the crowning touch a coordinating brick-joint mosaic creates a magnificent space completing the authentic stone look.

Cover photo features Light Grey 2cm pavers on the ground.  
Above photo features Light Grey & Dark Grey 2cm pavers on the ground.

APPLICATIONS

	Target DCOF wet	Suitable
Dry & Level – Interior Floor	N/A	✓
Wet & Level – Interior Floor	≥ 0.42	✓
Shower Floors – Standard Center Drain	≥ 0.42	✓**
Shower Floors – Linear Drain	≥ 0.42 (Mosaic) ≥ 0.60 (Floor)	✓**
Exterior Floor Applications (including patios, pool decking & other wet areas with minimal footwear)	≥ 0.60	✓*
Ramps & Inclines	≥ 0.65	
Walls/Backsplashes	N/A	✓
Countertops	N/A	✓
Pool Linings	N/A	

A DCOF value of ≥0.42 is the standard for tiles specified for level interior spaces expected to be walked upon when wet, as stated in ANSI A137.1-A326.3. For more information about DCOF and the DCOF AcuTest™, visit [daltille.com/DCOF](https://daltille.com/DCOF).

APPLICATION NOTES:

Suitable for exterior applications (provided it is noted as suitable in the applications chart above) in freezing and non-freezing climates, when proper installation methods are followed.

\* Paver tile only.

\*\* Mosaic tile only.

All or select items within this series meet the requirements for these qualifications. For more information, visit [daltille.com](https://daltille.com).

INSTALLATION

<b>Dry Laying on Grass:</b>	The gaps between the slabs should be chosen depending on the overall desired aesthetic.
<b>Dry Laying on Gravel:</b>	Gaps of at least 3/16" (5 mm) should be left between slabs, using spacers to set the correct width. Joint may be left empty or filled with fine sand, polymeric sand specifically formulated for porcelain tile or small, clean aggregate, depending on the joint width and desired aesthetic.
<b>Dry Laying on Sand:</b>	The gaps between the slabs should be chosen depending on the overall desired aesthetic.
<b>Laying on Screed with Adhesive:</b>	Slabs must be laid with open joints of variable width of no less than 3/16" (5 mm).
<b>Raised Pavings:</b>	Pedestal contains correct tile spacers for application.
<b>Mosaic:</b>	1/8"

SHADE VARIATION

PERFORMANCE CHARACTERISTICS

	ASTM#	Mosaic Result	Paver Result
Water Absorption	C373	< 0.5%	< 0.5%

2	All Residential Areas	④	All Residential / Commercial

NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.3 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at: [daltille.com/Factors](https://daltille.com/Factors),

To achieve optimal results, all tile should be selected from multiple cartons and shading and graphic arrangement planned prior to installation.

Special consideration needs to be given when installing tiles greater than 15 inches. Please refer to [daltille.com/LargeTiles](https://daltille.com/LargeTiles).

Special care should be taken when grouting with dark pigmented colors. A grout release is recommended to prevent finely powdered pigments from lodging in the pores of the surface. Use of a latex modified thin-set is recommended for installation.
