**Available in Neutral colors only.

StepWise™ Technology

EXCEEDS THE STANDARD

Not just a surface technique or non-slip coating, StepWise is infused into our top-quality porcelain tile to increase its dynamic coefficient of friction (DCOF). DCOF measures how tile will perform in wet conditions. A value of at least .42 is standard for interior floor tile. StepWise has a DCOF of at least .60... well above the standard.

With its combination of superior slip resistance and exceptional cleanability, StepWise is the ideal solution for commercial kitchens, pool surfaces, bathrooms, and more.
