

DINAClick

GE Healthcare's universal connection system for dual-tube CRITIKON™ blood pressure cuffs

Innovative and easy-to-use design allows clinicians to quickly connect/disconnect adult and pediatric blood pressure cuffs and provides standardization of your monitors and manual NIBP devices. The audible click lets users know there is a proper connection, and the ergonomically-designed system makes the DINAClick™ nearly effortless to use.

DINAClick connector benefits

- **Designed for safety.** Reduces misconnections with luer-style connectors
- **Improved workflow.** Decreases manual connection time
- **Universal connectivity.** Standardization solution for single-tube and dual-tube hoses
- **Intuitive design.** Easy-to-use
- **Non-metallic components.** Material design allows for use in MR environment
- **Patient safety.** Not made with natural rubber latex or DEHP
- **ISO-80369-5 compliant.** DINAClick connectors are compliant with ISO 80369-5 which regulates NIBP connector types to prevent misconnections and patient risks
