

The Patient's Journey Through Monitoring Solutions

Designed by clinicians, for clinicians, the GE Healthcare portfolio of monitoring solutions offers a variety of options – in a platform intended to serve clinicians throughout the patient care journey.

No one understands the innovative GE technology better than we do, which is why our entire portfolio of **GE clinical accessories** is designed or selected by the people who make the devices themselves.

Clinical Accessories like **lead wires, blood pressure cuffs, trunk cables, and water traps** support your monitoring accessory needs.

When it matters most, choose **GE Clinical Accessories** to connect the patients you care for, to the equipment you trust.

Trusted. Reliable. Simple.
