GE HealthCare

ViewPoint™ 6 for Cardiology

The smallest things make the biggest difference.

A percentage makes a difference.

When it comes to Echocardiograms, there are very narrow margins for error. Because of this, ViewPoint™ 6 powered by EchoPAC™, is designed to give you added confidence when making decisions.

Workflow makes a difference.

Our relentless focus on innovation has resulted in an optimized workflow experience for our customers. As a result, you can focus more on caring for your patients.

- ViewPoint 6 maximizes your efficiency by automating echocardiography workflows.
- It enables simple, fast, and efficient reporting using exam-specific, customizable templates.
- ViewPoint 6 allows data to be stored digitally for easy access so that users can review exam findings, images, clips, and volumes in one place.
- The integrated EchoPAC brings the power of the Vivid™ scanners to your desk.

Consistency makes a difference.

- ViewPoint 6's consistent and comprehensive reporting and image management capabilities follow guidelines from the main echocardiography societies worldwide.
- This level of precision and consistency coupled with ViewPoint 6's customization capabilities, allows you to make reliable decisions every time, with enhanced confidence.

GE HealthCare

Clinical power makes a difference with EchoPAC

- AI-based tools for advanced quantification of flow, valves and chambers
- Raw data capability: post processing of Vivid™ and third party 2D and 4D images.
- Automated Functional Imaging (AFI): Easy AFI LV, AFI LA, AFI RV, AFI Stress and Myocardial Work.

Effortless integration makes a difference

- ViewPoint 6 fully integrates into your IT infrastructure with ease.
- It allows patient information to flow more efficiently.
- You can count on our experienced IT professionals to provide you with a workflow solution tailored to your specific needs.
