Seasonal Energy Efficiency Ratio (SEER2)

This rating determines an air conditioner's efficiency. The higher the SEER2 rating, the more energy-efficient it is.

Ultimate Comfort System™ Product

Combines the best of the Dave Lennox *Signature*® Collection to create an unprecedented whole-home comfort system that seamlessly and intelligently works together to stay finely tuned to your home and deliver consistently clean, perfect air.

Fully Digital

A truly digital product is designed to pair with the Lennox S40 Smart Thermostat as part of a fully communicating home comfort system. Sensors in the equipment allow the thermostat to diagnose issues and automatically make system adjustments to more accurately and efficiently maintain temperature, humidity and air quality.

ENERGY STAR® Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

All-Electric Compatibility

An HVAC system that pairs an electric air conditioner or heat pump with an electric air handler, eliminating the need for natural gas while helping to lower energy bills and reduce greenhouse gas emissions.

Digital-Ready Unit

A unit that maximizes its efficiency with digital communication features when paired with the Lennox S40 Smart Thermostat and other fully digital components. On its own, it's remarkably efficient, compact and quiet—and ready to step up to a fully communicating system at any time.

Quantum Coil™

With years of rigorous testing under the most extreme conditions, our Quantum Coil—featuring a proprietary aluminum alloy exclusive to Lennox—designed to weather the harshest elements.

Precise Comfort® Technology

Finely-tunes and adjusts cooling output in tiny increments, perfectly matching your energy use with your comfort, making it the highest-efficiency, variable-capacity air conditioner available.

Warranty Your Way™

For eligible Dave Lennox *Signature*® Collection, homeowners have the opportunity to obtain the default 2 years parts only extension (for a total of 12-years parts only coverage) or, in lieu of that option, they have the opportunity to receive 3 years of labor coverage (for a total of 10 years parts and 3 years labor). Other terms, conditions, and exclusions apply. For more information, visit www.Lennox.com/WarrantyYourWay.

How does single-stage, two-stage & variable-capacity work?

72° Single-Stage

Unit is either on or off, creating wide temperature swings.

72° Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

72° Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
