

## Elite<sup>®</sup> heat pumps offer these features:

Sound-dampening system ensures smooth, quiet operation for a more peaceful environment

Corrosion protection and galvanized steel cabinet's powder finish resist the elements for years to come

Proprietary cabinet design makes them more durable and easier to install and service

Dual-fuel compatible with Lennox furnaces or all-electric compatible with Lennox air handlers

## Heating Seasonal Performance Factor (HSPF2)

A heating efficiency rating for heat pumps. A higher-rated HSPF2 heat pump will result in less energy use and increased energy savings over the life of the system.

## Seasonal Energy Efficiency Ratio (SEER2)

This rating determines a heat pump's efficiency. The higher the SEER2 rating, the more energy-efficient it is.

## Digital-Ready Unit

A unit that maximizes its efficiency with digital communication features when paired with the Lennox S40 Smart Thermostat and other fully digital components. On its own, it's remarkably efficient, compact and quiet—and ready to step up to a fully digital system at any time.

## ENERGY STAR<sup>®</sup> Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

## Dual-Fuel Compatibility

An HVAC system that pairs an electric heat pump with a gas furnace and alternates between the two fuel sources to maximize comfort and efficiency.

## All-Electric Compatibility

An HVAC system that pairs an electric air conditioner or heat pump with an electric air handler, eliminating the need for natural gas while helping to lower energy bills and reduce greenhouse gas emissions.

## Quantum<sup>™</sup> Coil

With years of rigorous testing under the most extreme conditions, our Quantum Coil—featuring a proprietary aluminum alloy exclusive to Lennox—designed to weather the harshest elements.

## Fully Digital

A truly digital product is designed to pair with the Lennox S40 Smart Thermostat as part of a fully communicating home comfort system. Sensors in the equipment allow the thermostat to diagnose issues and automatically make system adjustments to more accurately and efficiently maintain temperature, humidity and air quality.

## Warranty Your Way<sup>™</sup>

For eligible Elite series models, homeowners have the opportunity to obtain the default 5-year parts only extension (for a total of 10-years parts only coverage) or, in lieu of that option, they have the opportunity to receive 3 years of labor coverage and 2 years of parts coverage (for a total of 3 years labor coverage and 7 years parts coverage). Other terms, conditions, and exclusions apply. For more information, visit [www.Lennox.com/WarrantyYourWay](http://www.Lennox.com/WarrantyYourWay).

### How does single-stage, two-stage & variable-capacity work?

**72°**  
**Single-Stage**

Unit is either on or off, creating wide temperature swings.

**72°**  
**Two-Stage**

Unit runs at either low or high speed, using the lower speed 80% of the time.

**72°**  
**Variable-Capacity**

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
