

## Merit<sup>®</sup> heat pumps offer these features:

Reliable cooling and heating performance that helps provide savings during both the summer and winter months

Corrosion protection and galvanized steel cabinet's powder finish resist the elements for years to come

Proprietary cabinet design that makes them more durable and easier to install and service

Dual-fuel compatible with Lennox<sup>®</sup> furnaces or all-electric compatible with Lennox air handlers

Utilizes Low Global Warming Potential (GWP) Refrigerant and is equipped with a Refrigerant Detection System (RDS) to ensure safe operation

	Mid-Efficiency, Two-Stage Heat Pump <b>ML16KP2</b>	Standard-Efficiency, Single Stage Heat Pump <b>ML14KP1</b>
Low GWP Refrigerant		
Energy Efficiency	Up To 17.5 SEER2, 8.2 HSPF2	Meets or Exceeds 14.3 SEER2, 7.5 HSPF2
Stages of Cooling	Two-Stage Compressor	Single-Stage Compressor
ENERGY STAR <sup>®</sup> Certified		
Sound Rating	As Low As 72 dB	As Low as 74 dB
Removes Humidity From The Home	Higher Removal Rate	High Removal Rate
Quantum <sup>™</sup> Coil

## Tight on space? Check out our slim-design model.

The slim-design cabinet of the ML15KSPV heat pump allows for installation in even the tightest areas, making it perfect for space-constrained environments such as zero-lot-line homes. The side-discharge design also reduces sound levels for quiet, compact comfort.

## Seasonal Energy Efficiency Ratio (SEER2)

This rating determines a heat pump's efficiency. The higher the SEER2 rating, the more energy-efficient it is.

## Heating Seasonal Performance Factor (HSPF2)

A heating efficiency rating for heat pumps. A higher-rated HSPF2 heat pump will result in less energy use and increased energy savings over the life of the system.

## All-Electric Compatibility

An HVAC system that pairs an electric air conditioner or heat pump with an electric air handler, eliminating the need for natural gas while helping to lower energy bills and reduce greenhouse gas emissions.

## Quantum™ Coil

With years of rigorous testing under the most extreme conditions, our Quantum Coil—featuring a proprietary aluminum alloy exclusive to Lennox—is designed to weather the harshest elements.

## Low GWP Refrigerant

These products utilize a more environmentally friendly refrigerant that has low global warming potential (GWP) and is formulated to provide excellent, reliable performance of your system for years to come.

## Dual-Fuel Compatibility

An HVAC system that pairs an electric heat pump with a gas furnace and alternates between the two fuel sources to maximize comfort and efficiency.

## ENERGY STAR® Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

## Warranty Your Way™

For eligible Merit series models, homeowners have the opportunity to obtain the default 5-year parts only extension (for a total of 10-years parts only coverage) or, in lieu of that option, they have the opportunity to receive 3 years of labor coverage and 2 years of parts coverage (for a total of 3 years labor coverage and 7 years parts coverage). Other terms, conditions, and exclusions apply. For more information, visit [www.Lennox.com/WarrantyYourWay](http://www.Lennox.com/WarrantyYourWay).

### How does single-stage, two-stage & variable-capacity work?

#### 72° Single-Stage

Unit is either on or off, creating wide temperature swings.

#### 72° Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

#### 72° Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
