

Perfect air at your fingertips.

Unlock the full potential of your Lennox® heating and cooling system with our suite of Lennox smart thermostats.

Each has advanced features to monitor and automatically adjust heating and cooling to optimize comfort and energy savings. Being "smart" also means they effortlessly integrate with popular virtual assistants and premium smart home systems, and allows you to control your home's comfort from anywhere through a smartphone app.

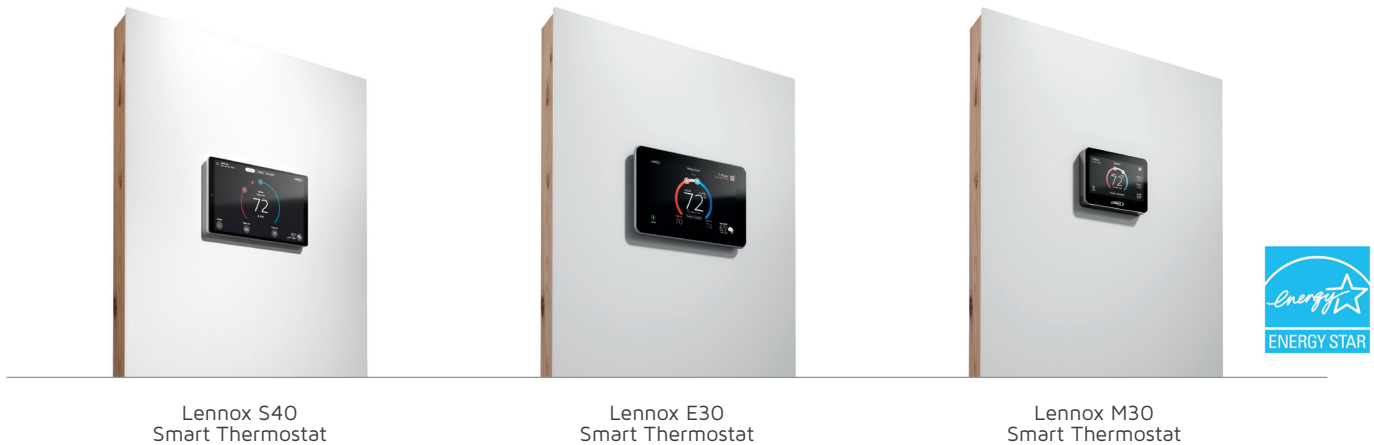

Welcome to Your Home Comfort Command Center. The Lennox S40 Smart Thermostat

Unlike most smart thermostats, the Lennox S40 Smart Thermostat is more than a temperature regulator. It's the command center for your entire system, with the incredible ability to monitor sensors throughout your home and in all your equipment. From detecting air pollutants and customizing comfort by room to providing maintenance and service reminders, it will even automatically alert you if your system goes out of tune and allow you to remotely share diagnostics with your local Lennox dealer. The Lennox S40 Smart Thermostat not only provides the most precise and perfect air, it also gives peace of mind.

Understanding Key Features and Benefits

From the Lennox S40 Smart Thermostat to the Lennox M30 Smart Thermostat, here's a look at what sets Lennox' leading smart thermostats apart.

All Lennox Smart Thermostats

- **Feels Like™ Temperature:** Creates the temperature you want to feel, not just the temperature you set—much like the "Feels Like" temperature in a weather report.
- **Schedule IQ Technology:** Combines with Smart Away™ Mode to learn your routine and create an energy-optimizing schedule of operation.
- **One-Touch Away Mode:** Overrides your regular programming schedule with a single touch and sets back your heating and cooling set points to save energy.
- **Smart Away™ Mode:** Uses the GPS in your smartphone to detect when you're leaving, and automatically adjusts the temperature to a more energy-efficient setting.
- **Control via App:** Monitor temperatures and schedules from anywhere in the world using the Lennox Smart Thermostat app (S40) or iComfort app (S30, E30 & M30) on your smartphone or tablet.
- **Smart Home Integration:** Effortlessly integrate with a range of smart home devices—from premium smart home systems like Control4 to popular virtual assistants like Amazon Alexa, Apple HomeKit, Google Assistant, and IFTTT.*
- **Performance Reports:** View overall system performance details and more when you opt in for monthly performance report emails.

S40 & E30

- **Allergen Defender:** Works with the whole-house humidity-control systems to adjust the home's humidity level.
- **Picture Upload:** Allows you to display a personal photo as the screensaver.
- **HD Video Screen Savers:** Automatically change to reflect current outdoor weather conditions.

S40

- **Lennox Smart Accessories:** Complement your home comfort system with our suite of technologically advanced accessories to more precisely and efficiently maintain the temperature and air quality in your home.
- **Precise Comfort® Plus:** Works with Lennox digital variable-capacity equipment to offer the highest level of comfort and overall system performance.
- **Built-In Communicating Abilities:** This truly digital product is part of a fully communicating home comfort system. Sensors in the equipment allow the thermostat to diagnose issues and automatically make system adjustments to more precisely and efficiently maintain temperature, humidity and air quality.
