

Fixed Gas and Flame Detection Premium Commissioning Services

Start it up right!

MSA's premium commissioning service program is designed to make it easy for you to have successful start-ups and commissioning of newly installed fixed gas and flame instruments. This program also offers some additional features not included in the regular commissioning program. This program offers a flat-fee approach for the commissioning services to make it easy for you to determine your costs. It works just like purchasing a product; the commissioning services have part numbers, descriptions, and established pricing.

MSA Commissioning Service Features & Benefits

- Inspection and verification of system installation and configuration
- Complete start-up/commissioning of entire system with functional testing
- Calibration with NIST-traceable calibration gases; no extra charge for gases or equipment
- Certificate of calibration generated with detailed sensor calibration record
- Enhanced hands-on training on installed system at time of commissioning
- Factory warranty initiated
- Upgrades the first year ship-in factory warranty into an on-site warranty
- MSA comes to you for warranty repair; instrument stays mounted within facility
- Includes all travel time, mileage, and related travel expenses; no extra charges
- All work done by MSA service professionals; no subcontractors

Number of Sensors or Sample Points*	Service Type	Part Number
1-4*	Premium Commissioning	Z-COM-PREM-4
5-10*	Premium Commissioning	Z-COM-PREM-10
11-24*	Premium Commissioning	Z-COM-PREM-24
More than 24	Premium Commissioning	Z-COM-PREM

* Use the table below to determine the total number of equivalent detection points:

Sensor or Monitor Type	Equivalent Sample Points
Ultima X Series, Prima X, FlameGard, Z-Gard, Chillgard LS, Chillgard NH ₃ , Chillgard LE, Toxgard II	1 Point each Sensor
OPIR and Senscient ELDS Open Path Detectors	2 Points per Source/Detector Pair
TriGard Monitors, Tri-Gas Monitors	3 Points per Monitor
Chillgard RT, Chemgard	4 Points per Monitor
Observer-i	6 Points per Detector
MultiGard Sampling Systems	8 Points per MultiGard
Suprema Touch, Model 10K	Number of Points of Detection
GasGard 100—must also order configuration service from Custom Products. Commissioning does not include programming of the GasGard 100.	Number of Points of Detection
