

*MSA's Workman® Rescuer provides fast, easy and intuitive fall protection with integral bidirectional retrieval capability. Once the Workman® Rescuer has arrested the fall, its rescue retrieval capabilities allow the user to ascend or descend to a safe location.*

*This durable, economical addition to the Workman Series of products offers fast installation and setup, ideal for applications where time and ease of use are a priority.*

*The Workman® Rescuer is also a standalone retractable device, as the carrying handle may be used as an anchorage attachment.*

## Applications

Exclusive integral bracket uses existing tripod pin, leaving fewer components to attach, or become damaged or misplaced. Fall protection/retrieval mode knob simply pulls and rotates to activate. Use this device as a component of a confined space system for one application and as a standard self-retracting lanyard for another.

- Experienced and even novice users can learn setup and operation quickly and effectively
- Comparable size and weight to competitive products
- Great for OGP turnarounds, construction, utilities and other confined space applications
- QR code on product label offers instant access to setup video and additional information

## Features & Benefits

- User capacity up to 140 kg
- Galvanized or stainless steel 5 mm wire rope
- Integral mounting bracket
- Color-coded switch for retrieval mechanism activation
- Ergonomic, stainless steel carrying handle can also be used as anchorage connection point
- Built-in shock absorber
- Robust aluminum housing with thermoplastic bumpers
- Self-locking swivel snaphook with load indicator
- Stowable, foldable crank handle
- RFID-enabled
- Certified to: EN 360, EN 1496, Class B

## Product Specification

<b>Net weight</b>	16.3 kg (includes bracket)
<b>Crank handle material</b>	Carbon steel with zinc plating
<b>Housing material</b>	Cast aluminum
<b>Lifting and lowering gear ratio</b>	Gear ratio: 5:1
<b>Maximum arresting force</b>	6 kN
