

COMPETENT PERSON FOR HORIZONTAL LIFELINE INSTALLATION & INSPECTION | ZT-CPHLL (4 HRS)

The Competent Person for Horizontal Lifeline Installation and Inspection course is designed for the fall protection equipment user, or at-risk worker, as well as their supervisors or manager, and the safety professional.

At the completion of this course, the participants will be able to discuss and demonstrate the following topics:

- Consensus standards that dictate the design of temporary, pre-engineered-horizontal lifelines ("kit systems") for one and two users
- Design statement, use, and limitations
- Installation procedures
- Inspection criteria, including pass / fail and disposal
- Cleaning and storage

The following is included in the registration fee:

- 1/2 day of hands-on instruction by an MSA factory trained instructor
- The MSA Competent Person for Horizontal lifeline Installation and Inspection instruction training manual and supporting documents
- Refreshments during the breaks in training
- MSA Safety at Heights certificate
