

MSA A2 Software Update Notes

Update Notes – MSA A2 Software

The MSA G1 SCBA was developed with the promise to provide continuous product support, most importantly enhancements to product performance, further elevating the overall G1 SCBA experience. Fulfilling that promise, MSA is pleased to announce the latest release of the MSA A2 Software, version 1.7.0.

Below are instructions for downloading the latest update. Also noted is a summary of enhancements included with this update.

STEPS FOR UPDATING A2 SOFTWARE

MSA provides three ways of updating the software.

1. Download **SETUP_UPDATE_MSA_A2_1.7.0** and install patch version of the software.
NOTE: Use when a customer has an older version of MSA A2 software installed.
2. Download **SETUP_FULL_MSA_A2_1.7.0** and install full version of the software.
NOTE: Use when a customer has not previously installed MSA A2 Software.
3. If the computer is connected to the internet, MSA A2 Software will ask if you would like to update as part of startup. Follow prompts to install the update.
