

Price Increase

Valued customers,

Due to global supply chain shortages which have adversely affected the FieldServer Gateways costs, we will be raising the price of the FieldServer product line effective 1st July 2021.

MSA is working with the global supply chain to understand the long-term impact and we will re-evaluate our costs for 2022. It is unclear how long we will have these cost increases and we appreciate your patience, unfortunately we have no control over this situation.

Price increase is as follows,

New formfactor		10%
Classic formfactor		15%

Please let me know if I can be of further assistance.

Respectfully,

Richard Theron
Product Manager – FieldServer
