# A powerful pair for learning auscultation.

## 3M™ Littmann Learning App

Designed to help users better recognize benign and pathological lung sounds, heart sounds and murmurs.

Your students can download the free app or subscribe for access to expanded content:

- Visual display of heart and lung sounds and frequencies
- Self-paced learning and testing
- Background reading material
- Graduated learning modules ranging from novice to advanced
- Access to 1,000+ real patient heart sounds and murmurs

## New 3M™ Littmann University App

Create a virtual classroom to help facilitate auscultation training and further your students' learning experience.

Schedule a demo for a free 30-day trial to unlock access to all content:

- Remote classroom capabilities
- Live streaming of a large library of patient sounds
- Group testing with immediate results
