

Identifying Water Filtration Solutions in Hotel Facilities

Many hotel facilities have drinking fountains, coolers, coffee brewers, ice machines, dishwashers, dispensing refrigerators, water heaters and other similar applications that could benefit from filtered water. 3M has solutions.

- Does the hotel currently use water filtration for beverages, ice machines, food prep/cooking equipment or drinking water?
If so, what brand of water filtration systems are currently installed for each application?
- If water filtration is being used, who manages the installation and maintenance within the hotel? Owner? Maintenance staff? Contract service provider?
- Does hotel management mandate any water filtration requirements as part of a water quality program?
- Are you aware of the potential impact of scale on ice machines, food prep/cooking equipment, boilers/water heaters?
- Has the incoming water been professionally tested by a third-party lab?
If so, are those results available so we can recommend the proper NSF certified filtration systems?
- Do you know if chloramines are present in your water? Are you aware of the potential impact of chloramines on equipment in your hotel?
- What can we do to help you provide the best quality water for your guests, equipment and your employees?

**Tasteful
water with less
maintenance.**

Hotel Facilities

Application	Water Quality Issue	Product Solution	Filtration Benefits
Ice Machine	Scale build-up, unpleasant taste & odor	ICE140-S	Clearer ice, better tasting, increased efficiency
Coffee Brewer	Scale build-up, unpleasant taste & odor	BREW120-MS	Better tasting, increased efficiency
Espresso Machine	Scale build-up, unpleasant taste & odor	ESP124-T	Better tasting, increased efficiency
Dishwasher	Scale build-up	AP430SS/AP904	Increased efficiency
Drinking Fountain	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting drinking water
Refrigerator	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting ice & drinking water
Sink (Prep, Utility)	Unpleasant taste & odor, lead	3MFF100	Cleaner, clearer cooking/drinking water
Water Cooler	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting
Cold Beverage	Scale build-up, unpleasant taste & odor	BEV130	Better tasting, increased efficiency
Water Heater	Scale build-up	AP430SS	Increased efficiency, utility cost savings
Shower	Scale build-up, unpleasant odor	AP430SS/AP904	Increased efficiency

For each product, key factors must be considered such as the application and its water pressure. Refer to the product manual for specific application and ordering information.
