

Safer water, plus less maintenance.

Identifying Water Filtration Solutions in Airport Facilities

Many airport facilities have drinking fountains, coolers, coffee brewers, ice machines, dishwashers, dispensing refrigerators, and other similar applications that could benefit from filtered water. 3M has solutions.

- Does the airport currently use water filtration? If so, where in the facility are water filtration systems: drinking fountains, restaurants, maintenance? What brand of water filtration systems are currently installed? If not, why not?
- Specific to drinking water, have employees or passengers complained about the taste and/or odor of the water?
- If water filtration is being used, who manages the installation and maintenance within the airport? Are restaurants responsible for their own water filtration needs?
- Has the incoming water been professionally tested by a third-party lab? If so, are those results available so we can recommend the proper NSF certified filtration systems?
- Do you know if chloramines are present in your water?
- Are you aware of the negative impact of chloramines on equipment in your facility?
- What can we do to help you provide the best quality water for your equipment and your employees?

Airport Facilities

Application	Water Quality Issue	Product Solution	Filtration Benefits
Ice Machine	Scale build-up, unpleasant taste & odor	ICE140-S	Clearer ice, better tasting, increased efficiency
Coffee Brewer	Scale build-up, unpleasant taste & odor	BREW120-MS	Better tasting, increased efficiency
Espresso Machine	Scale build-up, unpleasant taste & odor	ESP124-T	Better tasting, increased efficiency
Dishwasher	Scale build-up	AP430SS/AP904	Increased efficiency
Drinking Fountain	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting drinking water
Refrigerator	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting ice & drinking water
Sink (Prep, Utility)	Unpleasant taste & odor, lead	3MFF100	Cleaner, clearer cooking/drinking water
Water Cooler	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting
Cold Beverage	Scale build-up, unpleasant taste & odor	BEV130	Better tasting, increased efficiency
Showers	Scale build-up, unpleasant odor	AP430SS/AP904	Increased efficiency

For each product, key factors must be considered such as the application and its water pressure. Refer to the product manual for specific application and ordering information.
