

# Maintaining better water quality.

## Identifying Water Filtration Solutions in Commercial Office Facilities.

Many commercial office facilities have drinking fountains, coolers, coffee brewers, ice machines, dishwashers, dispensing refrigerators, and other similar applications that could benefit from filtered water. 3M has solutions.

- Does the office building currently use water filtration for beverages, ice machines or drinking water? If so, what brand of water filtration systems are currently installed?
- If water filtration is being used, who manages the installation and maintenance within the building: owner, maintenance staff, or contract service provider?
- Do you mandate any water filtration requirements as a part of commercial building quality program?
- Has the incoming water been professionally tested by a third-party lab? If so, are those results available so we can recommend the proper NSF certified filtration systems?
- Are you concerned about lead in water?
- Are you looking to replace water bottles with water dispensers similar to other office buildings?
- What can we do to help you provide the best quality water for your equipment and your employees?

### Commercial Office Facilities

Application	Water Quality Issue	Product Solution	Filtration Benefits
Ice Machine	Scale build-up, unpleasant taste & odor	ICE140-S	Clearer ice, better tasting, increased efficiency
Coffee Brewer	Scale build-up, unpleasant taste & odor	BREW120-MS	Better tasting, increased efficiency
Espresso Machine	Scale build-up, unpleasant taste & odor	ESP124-T	Better tasting, increased efficiency
Dishwasher	Scale build-up	AP430SS/AP904	Increased efficiency
Drinking Fountain	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting drinking water
Refrigerator	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting ice & drinking water
Sink (Prep, Utility)	Unpleasant taste & odor, lead	3MFF100	Cleaner, clearer cooking/drinking water
Water Cooler	Unpleasant taste & odor, lead	AP Easy Complete Cooler	Better tasting
Cold Beverage	Scale build-up, unpleasant taste & odor	BEV130	Better tasting, increased efficiency
Showers	Scale build-up, unpleasant odor	AP430SS/AP904	Increased efficiency

For each product, key factors must be considered such as the application and its water pressure. Refer to the product manual for specific application and ordering information.

# 3M Water Filtration Solutions for Commercial Office Facilities

- 1 Office**  
 Drinking Fountain  
 Coffee Brewer  
 Espresso Machine  
 Water Cooler
- 2 Meeting Room**
