

Filtek™

Supreme
Flowable Restorative

Now our most popular flowable is easier to inject.

3M™ Filtek™ Supreme Flowable Restorative is available in an ergonomic syringe designed for improved comfort and easier injection.*

Reduce bubbles and waste

Virtually no bubbles or material “run-on” during dispensing gives you better control.*

No more guessing

The blue syringe barrel indicates the remaining material volume. When your syringe is empty, only the white plunger shows.

Bendable cannula

Easy-to-bend without kinking for better access.*

Easy to hold and inject

Triangle finger plate and plunger make it quick and easy to personalize your grip.*

Key benefits

- Virtually no bubbles or material “run-on”*
- Easy-to-bend cannula for improved access*
- Ergonomic design is easy to hold and inject*
- Excellent adaptation, polish retention and wear resistance*
- Versatile for a wide range of indications and techniques

Can be warmed for injection moulding

Warm up to 70°C for up to one hour, up to 25 times.*

Clinical cases

3M™ Filtek™ Supreme Flowable Restorative offers a smooth transition from material to tooth for aesthetic restorations.
