3M™ RelyX™ Universal  
Resin Cement

Goodbye  
complexity.

# The two that can do it all.

**3M™ RelyX™ Universal Resin Cement** works both as a standalone, self-adhesive cement and as an adhesive cement when combined with **3M™ Scotchbond™ Universal Plus Adhesive**.

Together they eliminate the hassle and confusion of multiple resin cements, primers and adhesives, **simplifying your direct and indirect restorative workflows**. With fewer products to stock and replenish, you save space, time and money.

## So simple yet so powerful.

- Two components for virtually all indirect and direct bonding indications
- Outstanding self-adhesion of RelyX Universal Resin Cement
- Scotchbond Universal Plus Adhesive further enhances bond strength to all substrates
- Unique 3M automix syringe
- Easy excess clean-up
- High esthetics

### Game-changing syringe.

Proprietary 3M design takes automix cement applications to the next level. Developed with your needs in mind for easy dispensing, cleaning and storage. The small, low-waste 3.4 g syringe provides enough material for around 15 applications.

### Easy excess clean-up.

Efficient to the last step. Its unique chemistry ensures excess outflow stays put at the restoration margins, and can be easily removed after tack curing.

### The strong partner for adhesive cases.

3M™ Scotchbond™ Universal Plus Adhesive is the first radiopaque, all-in-one universal adhesive for all direct and indirect bonding indications. And, it is a fully aligned system: the adhesive is cured by the cement, so no light-cure is needed.

Scotchbond Universal Plus Adhesive serves as universal primer for all materials including glass ceramics and further boosts the cement's excellent self-adhesive bond e.g. to zirconia.

### Outstanding self-adhesion for maximized efficiency.

With its superior self-adhesive bond strength to dentin, RelyX Universal Resin Cement reliably treats most cases with no need for an additional adhesive or primer. For light- or self-cure.

### Virtually no post-operative sensitivity

**99%** of dentists reported that RelyX Universal Resin Cement shows virtually no post-operative sensitivity\*\*\*
