3M™ Cavilon™ Durable Barrier Cream

Durable moisturization for at-risk or severely dry skin.

Formulated with 3M polymer technology, 3M™ Cavilon™ Durable Barrier Cream is a concentrated, fragrance-free moisturizing skin barrier that resists wash-off and allows adhesives to adhere. It's ideal for moisturization of at-risk and/or severely dry skin. It also provides a barrier which protects skin at low risk for breaking down.

Where ingenuity and innovation meet real-world needs.

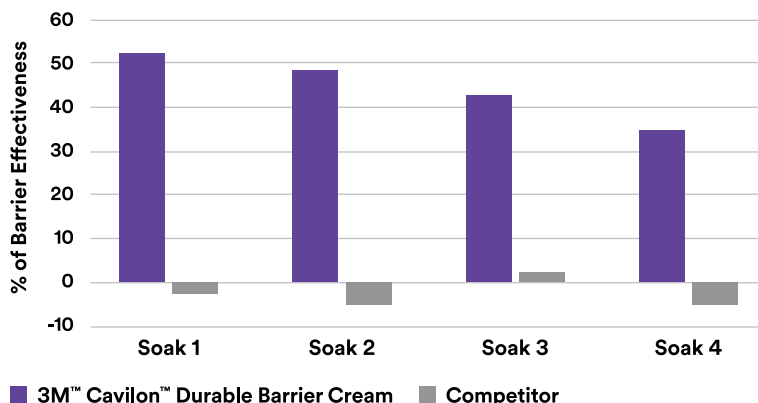

3M™ Cavilon™ Durable Barrier Cream features an innovative, polymer-based formula that:

- ✓ Moisturizes at-risk and severely dry skin
- ✓ Provides a breathable barrier to promote skin health
- ✓ Resists wash-off, eliminating the need for frequent reapplication
- ✓ Allows tapes and dressings to adhere
- ✓ Helps reduce product used due to its concentrated formulation

More resistant to soaking and washing.

In one study, 3M™ Cavilon™ Durable Barrier Cream provided better barrier effectiveness than the competitor, even after 4 soak cycles and 3 cleansing steps.

Further testing showed that 3M™ Cavilon™ Durable Barrier Cream had significantly greater barrier effectiveness remaining after 4 soak cycles than the competitor had after 1.*
